1-2 Corinthians Thomas C. Oden, 2013-07-04 The Ancient Christian Commentary on Scripture is a unique twenty eight volume series encompassing all of Scripture and offering contemporary readers the opportunity to study for themselves the key writings of the early church fathers Arranged by the books of the Bible each portion of commentary allows the living voices of the church in its formative centuries to speak as they engage the sacred page of Scripture rendered throughout the series in English in the ecumenically accepted Revised Standard Version of the Bible The Ancient Christian Commentary on Scripture does what very few of today s students of the Bible could do for themselves With the aid of computer technology the vast array of writings from the church fathers including much that is available only in the ancient languages have been combed for their comment on Scripture From these results scholars with a deep knowledge of the fathers and a heart for the church have hand selected material for each volume shaping annotating and introducing it to today s readers Each portion of commentary has been chosen for its salient insight its rhetorical power and its faithful representation of the consensual exegesis of the early church The Ancient Christian Commentary on Scripture is an ecumenical project promoting a vital link of communication between today s varied Christian traditions and their common ancient ancestors in the faith On this shared ground we listen as leading pastoral theologians of the church s first several centuries gather around the text of Scripture and offer their best theological spiritual and pastoral insights Today the historical critical method of interpretation has nearly exhausted its claim on the biblical text and on the church In its wake there is a wide spread yearning among Christian individuals and communities for the wholesome the deep and the enduring The Ancient Christian Commentary on Scripture seeks not to replace those excellent commentaries that have been produced in the twentieth century It supplements them framing them with interpretive voices that have long sustained the church and only recently have fallen silent It invites us to listen with appreciative ears and sympathetic minds as our ancient ancestors in the faith describe and interpret the scriptural vistas as they see them The Ancient Christian Commentary on Scripture is a postcritical revival of the early commentary tradition known as the *glossa ordinaria* a text artfully elaborated with ancient and authoritative reflections and insights An uncommon companion for theological interpretation spiritual reading and wholesome teaching and preaching Collected Works of Erasmus Desiderius Erasmus, 1989-01-01 This is the first of five volumes to appear in the section of the CWE devoted to Erasmus spiritualia works of spirituality that include such aspects of religion as piety theology and the practice of ministry The volume begins with an introductory essay that provides the first comprehensive review of the content sources and style of Erasmus many works dealing with piety Charism in the Church Constant Leke Ngolefac, 2024-03-01 Charism is a hot contemporary issue The growing interest in the charisms is one of the significant religious developments of our time Opinions on charisms vary to a remarkable degree Unfortunately in some cases diverse viewpoints have led to confusion among Christians On the positive side though this developing interest in charisms has contributed to spiritual renewal and

stimulated biblical research in this most important area of the Church's life. The exponential growth of the Charismatic Pentecostal Movement throughout the world and especially in Africa urged led to choice of this topic on charisms. In the Charismatic Pentecostal Movements the issue of charisms is very vital and extremely important. It is at the centre of its spirituality and practice. This Movement has spread to almost all major Christian confessions, denominations and continues to attract many followers. This work is unique among the many studies written on the charisms. Even though the subject of charisms has received some scholarly attention, most have not delved into the role of the charisms in the Church from a Pauline perspective as this study does. The following observations and reasons demonstrate that it is still meaningful and worthwhile to study charisms in Pauline letters.

Arranged by verse and then by commentator, this volume incorporates the ancient patristic writings on the first and second letters of Paul to the Corinthians. Commentators include Chrysostom whose 77 homilies on the two epistles are a significant resource for modern scholars. Pelagius and Origen, who are both more famous for their heresies than their commentaries, and Ambrosiaster whose commentary on 1 and 2 Corinthians has only recently become available in English translation. Multicultural Kingdom Harvey C. Kwiyani, 2020-04-30. Multicultural Kingdom explores some of the causes and implications of ethnic diversity on the British Christian landscape and the landscape of theology itself. Why do we prefer to remain segregated in our ecclesiology? Why do several churches of different ethnic heritage use the same building for services on Sunday but not worship together?
