learn how to make better decisions and thrive alongside increasing competition and uncertainty **Rethinking International Strategy in Times of rising Uncertainty. The Internationalization of Tesla Inc.** Moritz Henninger, 2021-02-17 Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1 3 University of Stuttgart Institute for International and Strategic Management language English abstract This paper hopes to answer how increasing uncertainty is impacting International Management and how new and innovative companies like Tesla Inc conduct international expansion Economic activities in the 21st century are characterized by dynamic global competition the increasing interdependence and internationalization of economic relations and the resulting merging of world markets With the continuous expansion of world trade and investment with factors of production being highly mobile and with the sources of innovation becoming increasingly global an increasingly larger share of the global economy is reasonably accurately characterized as open it est as being exposed to the forces of global competition and to the international flows of capital technology and skilled labor Yet the belief in globalization and free trade seems to be in disarray since the shocks of Brexit and Trump in 2016 In various regions of the world a flare up of nationalism protectionism and trade barriers is creating a politically and economically volatile atmosphere While 2019 and 2020 brought new obstacles from customs tariffs to a global pandemic this has led to a shift in framework conditions rather than an end to international competition In addition a lot of companies across various business sectors are entangled in extensive and expensive investment or restructuring programs brought upon by the ever increasing pace of technological sociological and legal developments Still there is uncertainty if these investments will one day pay off or turn out to be a charge in the wrong direction Between 1970 and 2018 FDI grew from 14 2 billion to 1 43 trillion US dollars an increase of over 900 percent Based on this rapid development participation in international competition has become a matter of course if not a necessity for many companies and their attention is focused on efficient conduct and value adding administering of international activities This begs the question how internationally active companies with a global and decentralized value chain can fight rising uncertainty and react to constantly changing environments How can these companies not only hold on to existing business but expand their dominance in the market against the backdrop of uncertainty Are established strategy models such as Ghemawat s AAA model still applicable today do they need to be revised or is there even a need for completely new approaches *Rethinking Strategy* Henk Wijtze Volberda, Tom Elfring, 2001 Summarizes the latest directions and developments in strategic management theory synthesizing American and European approaches Rethinking College Education George Allan, 1997 Not a method of turning your degree back in and having your loans forgiven but an argument that by becoming vocational schools measured by reduced cost and efficient production colleges and universities are neglecting their essential purpose The reason for college education says Allan is to provide an environment within which students can absorb the moral practices that determine how they can acquire and evaluate knowledge best conduct their
