Napoleons Cavalry:

Napoleon's Cavalry: A Key Element to Decisive Victory Major Thomas A. Shoffner, 2015-11-06 Napoleon's rise to power in the late eighteenth century occurred at a time when the structure of most European armies was based on the paradigm army of Frederick the Great. Napoleon however changed all of this and in a few short years transformed the French army into the most powerful force on the continent of Europe. During the period of 1805 to 1813 Napoleon's army had no equal with regard to operational effectiveness. Speed and positioning of forces were the two main characteristics that made the French army so successful. These same two characteristics were also inherent to French cavalry units. Thus the central research question is: What influence did cavalry have upon Napoleon's operations? To facilitate this study two campaigns were examined that illustrate cavalry's impact on Napoleon's operations. The first campaign was the Jena Campaign of 1806, the second was the Saxony Campaign of 1813. The Jena Campaign demonstrated that with the employment of sufficient and well-trained cavalry, Napoleon could render his victories decisive through the complete destruction of the enemy army. Conversely, the Saxony Campaign demonstrated that without the effective employment of sufficient and well-trained cavalry, Napoleon could not obtain the complete destruction of the enemy army and thus his victories were hollow or at best Pyrrhic. Therefore, based on the analysis of these two campaigns, this study has concluded that Napoleon's cavalry was a key element for Napoleon achieving complete destruction of the enemy army, thus rendering his victories decisive. *Napoleon's Cavalry, Artillery and Technical Corps 1799-1815* Gabriele Esposito, 2023-05-30 The French Army of Napoleon could count on a brilliant mounted arm consisting of three main types of cavalry: heavy, medium, and light. The first, consisting of carabiniers and cuirassiers, was tasked with conducting frontal charges; the second, consisting of dragoons and lancers, could perform a variety of different duties; the third, consisting of hussars and mounted chasseurs, was tasked with scouting and skirmishing. The various regiments were all dressed in flamboyant uniforms and distinctive equipment. Perhaps more than any other troops, they encapsulated the dash and glamour of Napoleonic warfare. Napoleon started his military career as an artillery officer and thus always paid great attention to the quality of his army's artillery, which consisted of both foot and horse units. Several of Bonaparte's greatest victories were achieved thanks to the superiority of his artillery, which was undoubtedly the best in Europe during the period 1799-1815. In addition to cavalry and artillery, the author also covers the minor technical corps of Napoleon's army, such as the engineers and supply train. All are beautifully illustrated by the many color plates in this book and their organization, equipment, and tactics described. **The Art of Warfare in the Age of Napoleon** Gunther E. Rothenberg, 1980 Some 12 years ago it was estimated that well over 300,000 works existed on this period, and since then several thousand more have appeared. Therefore, it might be reasonably argued that there is little room for another volume. Nonetheless, this vast outpouring of literature has usually dealt with major leaders, specific battles, or campaigns, and with certain branches of the service. Moreover, at least in English, the literature tends to concentrate primarily on the French or

British armies There appears to be a lack of works combining a description of the major changes and trends in the art of war especially at the cutting edge of events with a discussion of the French military establishment and the armies of the major opponents British as well as continental And while this book is only a brief survey I do believe that it may serve as a contribution towards filling this gap in our historical knowledge of military institutions and fighting men *Napoleon's Cavalry and Its Leaders* David Johnson,1978 Dressed in outrageously romantic uniforms and led by a flamboyant clique of aristocrats and ex troopers Napoleon s cavalry fought in Austria Germany Egypt Italy Poland Belgium and Spain This account of the most remarkable and successful cavalry in history is the culmination of 30 years of research **Napoleon's Heavy Cavalry** Paul L.
