SECOND DEATH

Slavoj Žižek AND Mladen Dolar

Operas Second Death

Fabio Vighi, Heiko Feldner

Operas Second Death:

Opera's Second Death Slavoj Žižek, Mladen Dolar, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company

Opera as Soundtrack Jeongwon Joe, 2016-05-13 Filmmakers fascination with opera dates back to the silent era but it was not until the late 1980s that critical enquiries into the intersection of opera and cinema began to emerge Jeongwon Joe focusses primarily on the role of opera as soundtrack by exploring the distinct effects opera produces in film effects which differ from other types of soundtrack music such as jazz or symphony These effects are examined from three perspectives peculiar qualities of the operatic voice various properties commonly associated with opera such as excess otherness or death and multifaceted tensions between opera and cinema for instance opera as live embodied high art and cinema as technologically mediated popular entertainment Joe argues that when opera excerpts are employed on soundtracks they tend to appear at critical moments of the film usually associated with the protagonists and the author explores why it is opera not symphony or jazz that accompanies poignant scenes like these Joe s film analysis focuses on the time period of the post 1970s which is distinguished by an increase of opera excerpts on soundtracks to blockbuster titles the commercial recognition of which promoted the production of numerous opera soundtrack CDs in the following years Joe incorporates an empirical methodology by examining primary sources such as production files cue sheets and unpublished interviews with film directors and composers to enhance the traditional hermeneutic approach The films analysed in her book include Woody Allen s *Match Point* David Cronenberg s *M Butterfly* and Wong Kar wai s *2046*

The Last Opera Chandler Carter, 2019-05-31 From the fall of 1947 through the summer of 1951 composer Igor Stravinsky and poet W H Auden collaborated on the opera *The Rake s Progress* At the time their self consciously conventional work seemed to appeal only to conservative audiences Few perceived that Stravinsky and Auden were confronting the central crisis of the Modern age for their story of a hapless eighteenth century Everyman dramatizes the very limits of human will a theme Auden insists underlies all opera In *The Last Opera* Chandler Carter weaves together three interlocking stories The central and most detailed story explores the libretto and music of *The Rake s Progress* The second positions the opera as a focal point in Stravinsky s artistic journey and those who helped him realize it his librettists Auden and Chester Kallman his prot g Robert Craft and his compatriot fellow composer and close friend Nicolas Nabokov By exploring the ominous cultural landscape in which these fascinating individuals lived and worked the book captures a pivotal twenty five year span from approximately 1945 to 1970 during which modernists like Stravinsky and Auden confronted a tectonic disruption to their artistic worldview Ultimately Carter reveals how these stories fit into a larger third narrative the 400 year history of opera This richly and lovingly contextualized study of *The Rake s Progress* sheds new light on why despite the hundreds of musical dramas and theater pieces that have been written since its premier in 1951 this work is still considered the the last opera

Echoes of Opera in Modern Italian Poetry Mattia Acetoso, 2020-06-24 Twentieth century Italian poetry is haunted by countless ghosts

and shadows from opera Echoes of Opera in Modern Italian Poetry reveals their presence and sheds light on their role in shaping that great poetic tradition This is the first work in English to analyze the influence of opera on modern Italian poetry uncovering a fundamental but neglected relationship between the two art forms A group of Italian poets from Gabriele D Annunzio to Giorgio Caproni by way of Umberto Saba and Eugenio Montale made opera a cornerstone of their artistic craft More than an occasional stylistic influence opera is rather analyzed as a fundamental facet of these poets intellectual quest to overcome the expressive limitations of lyrical poetry This book reframes modern Italian poetry in a truly interdisciplinary perspective broadening our understanding of its prominence within the humanities in the twentieth century and beyond

Opera after 1900 Margaret Notley,2017-07-05 The articles reprinted in this volume treat operas as opera and from some sort of critical angle none of the articles uses methodology appropriate for another kind of musical work Additional criteria used in selecting the articles were that they should not have been reprinted widely before and that taken together they should cover an extended array of significant operas and critical questions about them Trends in Anglophone scholarship on post 1900 opera then determined the structure of the volume The anthologized articles are organized according to the place of origin of the opera discussed in each of them the introduction however follows a thematic approach Themes considered in the introduction include questions of genre and reception perspectives on librettos and librettists words lyricism and roles of the orchestra and modernism and other political contexts

Did Somebody Say Ideology? Fabio Vighi,Heiko Feldner,2007 Did Somebody Say Ideology explores the philosophical political and psychoanalytic foundations of Slavoj Žižek's work almost two decades after his arrival on the international scene of contemporary philosophy with *The Sublime Object of Ideology* 1989 The book generally focuses on the understanding and applicability of Žižek's theory of ideology arguably the distinguishing and most original feature in his oeuvre so far The first part contains six essays that carry out specific investigations into key aspects of the Slovenian philosopher's work the second part practices Žižek's own injunction about Lacan oediscovers Lacanian themes everywhere on Žižek himself employing his theories in different contexts and relating them to other thinkers Each study in the present volume testifies to the extraordinary vitality of Žižek's writing demonstrating how his psychoanalytic brand of ideology critique fosters innovative research in a variety of intellectual fields and academic disciplines
