Provenzo, Jr., Annis N. Shaver, Manuel Bello, 2011-01-24 This book is about the social political and cultural content of elementary and secondary textbooks in American education It focuses on the nature of the discourses the content and context that represent what is included in textbooks **Computer Literacy** Vincent Walsh, 1985 *Information Systems Literacy* Hossein Bidgoli, 1993-01-01

The Politics of the Textbook Michael Apple, Linda Christian-Smith, 2017-09-08 The Politics of the Textbook analyzes the factors that shape production distribution and reception of school texts through original essays which emphasize the double edged quality of textbooks Textbooks are viewed as systems of moral regulation in the struggle of powerful groups to build political and cultural accord They are also regarded as the site of popular resistance around dislodging the interest underlying school knowledge and incorporating alternative traditions **Teach yourself guide computer literacy** Liffie Champion, 2004 *The Routledge Companion to Digital Media and Children* Lelia Green, Donnell Holloway, Kylie Stevenson, Tama Leaver, Leslie Haddon, 2020-10-27 This companion presents the newest research in this important area showcasing the huge diversity in children's relationships with digital media around the globe and exploring the benefits challenges history and emerging developments in the field Children are finding novel ways to express their passions and priorities through innovative uses of digital communication tools This collection investigates and critiques the dynamism of children's lives online with contributions fielding both global and hyper local issues and bridging the wide spectrum of connected media created for and by children From education to children's rights to cyberbullying and youth in challenging circumstances the interdisciplinary approach ensures a careful nuanced multi dimensional exploration of children's relationships with digital media Featuring a highly international range of case studies perspectives and socio cultural contexts The Routledge Companion to Digital Media and Children is the perfect reference tool for students and researchers of media and communication family and technology studies psychology education anthropology and sociology as well as interested teachers policy makers and parents **Intermediality** Ladislaus Semali, 2018-02-02 With the ever growing proliferation of electronic and other popular media the complexity of relationship between what students see and hear what they believe and how they interact with one another underscores now more than ever the need for across the curriculum teaching of critical thinking critical reading and critical viewing skills The emerging consensus is that teaching critical viewing skills bolsters students abilities in traditional disciplines combats problems of youth apathy violence and substance abuse and improves students parents and teachers attitudes toward school Intermediality Teachers Handbook of Critical

Media Literacy challenges the practice of teaching the classics and the canon of acceptable literary works far removed from students experiences with emphasis on learning environment over the presentation of any specific or specified content The authors Ladislaus Semali and Ann Watts Pailliotet present literacy education as intermedial in nature it entails constructing connections among varying conceptions and sign systems Reading printed texts requires more than simply decoding letters into words or sounds it involves finding meaning motive structure and affect The same goes for reading the electronic text The authors argue for the discourse of literacy to take up a critical stance by examining a whole wide array of texts that form the meaning making process of the looming information age Intermediality examines extends and synthesizes the existing literary definitions texts theories processes research and contexts It brings into focus the possibilities of working with media texts to address questions adapted from linguists and literary educators Thus in this book critical media literacy becomes a competency to read interpret and understand how meaning is made and derived from print photographs and other electronic and graphic visuals
