Realigners Timothy Shenk, 2022-10-18 One of The Wall Street Journal's best political books of 2022 An eye opening new history of American political conflict from Alexander Hamilton to Alexandria Ocasio Cortez These days it seems that nobody is satisfied with American democracy Critics across the ideological spectrum warn that the country is heading toward catastrophe but also complain that nothing seems to change At the same time many have begun to wonder if the gulf between elites and ordinary people has turned democracy itself into a myth The urges to defend the country's foundations and to dismantle them coexist often within the same people How did we get here Why does it feel like the country is both grinding to a halt and falling to pieces In *Realigners* the historian Timothy Shenk offers an eye opening new biography of the American political tradition In a history that runs from the drafting of the Constitution to the storming of the Capitol Shenk offers sharp pen portraits of signal characters from James Madison and Charles Sumner to Phyllis Schlafly and Barack Obama The result is an entertaining and provocative reassessment of the people who built the electoral coalitions that defined American democracy and a guide for a time when figures ranging from Alexandria Ocasio Cortez to MAGA minded nationalists seek to turn radical dreams into political realities In an era when it seems democracy is caught in perpetual crisis *Realigners* looks at earlier moments in which popular majorities transformed American life We've had those moments before And if there's an escape from the doom loop that American politics has become it's because we might have one again

Republican Women Catherine E. Rymph, 2006-05-18 In the wake of the Nineteenth Amendment Republican women set out to forge a place for themselves within the Grand Old Party As Catherine Rymph explains their often conflicting efforts over the subsequent decades would leave a mark on both conservative politics and American feminism Part of an emerging body of work on women's participation in partisan politics *Republican Women* explores the dilemmas confronting progressive conservative and moderate Republican women as they sought to achieve a voice for themselves within the GOP Rymph first examines women's grassroots organizing for the party in the decades following the initiation of women's suffrage She then traces Marion Martin's efforts from 1938 to 1946 to shape the National Federation of Women's Republican Clubs the party's increasing dependence on the work of women at the grassroots in the postwar years and the eventual mobilization of many of these women behind Barry Goldwater in defiance of party leaders From the flux of the party's post Goldwater years emerged two groups of women on a collision course a group of party insiders calling themselves feminists challenged supporters of independent Republican Phyllis Schlafly's growing movement opposing the Equal Rights Amendment Their battles over the meanings of gender power and Republicanism continued earlier struggles even as they helped shape the party's fundamental transformation in the Reagan years

To Give Witness Gordon Kunkler, 2020-01-30 I wrote this book also for a number of

reasons There are people and organizations that want to take our faith and beliefs away from us In many ways we have already lost a lot of ground and some of our ways of practicing our faith Our forefathers came to this country for freedom of faith They were tired of being told how they had to worship God or that they couldn't do this or that Our country was founded on the idea of freedom of religion We have the right to worship where and when we feel like worshiping God By doing this I am not telling anyone else what they can do or how to worship I am just practicing my faith Others are free to not worship and stay home on Sundays and do nothing if this is what makes them happy But they don't need to tell me where I can hang a picture of Jesus put up a cross or sign or where I can pray to my savior I have showed in this book where we have lost some of our freedom because we did nothing Those with money have won out in many ways We may not be rich in money but we all have a voice and legs to stand on We can't convince anyone that we are right by saying Okay we won't defend what we believe This we have done too often The prophets were perhaps the first to give witness to us and then Jesus and then the apostles and the church after that All of creation if we look at what God has created and is still creating should all be witnesses The big bang theory just doesn't work Everything had to begin with something Where did this something come from if not from an all knowing supreme being This I all tried to bring out in my book as well as the time when God spoke for himself when the sky opened and a voice from the clouds said This is my beloved Son Listen to him In this book I have witnessed again and also some of my friends have given their witness in hope of convincing others how important our faith is and how we all need to respond to attacks on our faith If you want to share your faith in Jesus and how you have seen God work in your life I would like to tell you to maybe write your own book If you say that it isn't possible for you to write I would like you to send me the story of God's work in your life When I get enough I may have another book to write If God wants you to write he will help you He helped me A few years ago a friend read my first book and shared her story with me I told her that she should write her own book and she did in fact she has written several Her name is Vicki Leigh I shared a part of her story in this book Will you stand up or speak for your faith
