MacMahon, 2024-10-28 As you move past the age of 50 the physiological demands of running require adjustments in training intensity recovery goal setting and mental outlook *Running Past 50* is your guide to addressing those demands so you can continue to enjoy compete and excel in the sport you love Accomplished runner and coach Caolan MacMahon shares practical advice and her personal stories to guide and inspire you to set realistic yet challenging goals adapt to the body s changing realities including the female specific changes brought on by menopause identify the building blocks of successful training establish and maintain an aerobic base maximize training while minimizing injury and incorporate rest and recovery more effectively into workouts or training cycles Additionally you will find 10 week training programs for beginner intermediate and advanced runners aiming to conquer a 5K or 10K a half marathon program for novice and intermediate runners and 18 week training programs for marathon beginners intermediate and advanced marathoners and ultramarathoners Both inspirational and practical *Running Past 50* will help you achieve your goals by making the necessary shifts in thinking and training that lead to personal bests fewer injuries and a lifetime of running **Border Run** Simon

Lewis, 2012-04-24 Naively following a Burmese jungle tour guide who has allured them with stories about seductive tribal women backpackers Will and Jake discover that they have been set up to provide cover for the guide s deadly smuggling operation *Running--Just Undo It* Jack Nirenstein, 2005-06-06 Recognized leaders in the scientific research and

development fields of running should never have been taken seriously They have all failed to solve the mechanics of what it takes to run My techniques are not simply better they are the only way to do it effectively They will help everyone achieve better health safety and performance than they have been able to do by running the old way If running is a part of your exercise routine *Running Just Undo It* will help you improve your performance Author Jack Nirenstein s amazing methods will transform how you run by teaching you simply to pay close attention to the mechanics of the human body While gravity running is not a new concept the Nirenstein method is the first and only way to make it work Nirenstein contends that athletes tend to let bad science interfere with their inherent body mechanics Too many runners don t achieve optimum performance because of inaccurate instructions about proper form The standard science of pushing hard for a longer stride sounds logical but Nirenstein shows you how it actually opposes the body s forward motion With stretching techniques step by step instructions for all types of running and many helpful photos and illustrations you ll be off and running in no time
