

FREUD'S PSYCHOANALYTIC THEORY

REVIEWER

MODULE 5

- **Freud's Psychoanalytic Theory** – theory of personality organization and dynamics of personality development that guides **psychoanalysis**, a clinical method for treating psychopathology.
- **Freud's Stages of Psychosexual Development** – this theory identifies specific erogenous zones for each stage of development.
 - ♥ Freud is the most popular and controversial psychologist that studies the development of personality.
 - ♥ A person goes through the sequence of these five (5) stages and along the way there are needs to meet.
 - 1) **Oral Stage** (*birth to 18 months*) – during this stage the child is focused on oral pleasures. Too much or little satisfaction can lead to **oral fixation** or **oral personality** which is shown in an increased focus on oral activities. This type of personality may be **oral receptive** (have a stronger tendency to smoke, drink alcohol, overeat, or **oral aggressive** – a tendency to bite his/her nails, curse or even gossip) These persons may become too dependent, easily fooled, and lack leadership traits.
 - 2) **Anal Stage** (*18 months to 3 years*) – the child finds satisfaction in eliminating and retaining feces. In terms of personality, fixation during this stage can result in being **anal retentive**, an obsession with cleanliness and control; or **anal expulsive** where the person may become messy and disorganized.
 - 3) **Phallic Stage** (*ages 3 to 6*) – the preschool age, children become interested in what makes boys and girls different.
 - 4) **Latency** (*ages 6 to puberty*) – during this stage the children's focus is the acquisition of physical and academic skills.
 - 5) **Genital** (*puberty onward*) – the fifth stage of psychosexual development begins at the start of puberty. Adolescents focus their sexual urges on their opposite-sex peers, with pleasure centered on the genitals.
- **Freud's Personality Component**
 - ♥ Freud described the personality structures as having three components (the id, the ego, and the super-ego)
 - ✓ **Id** – plays a vital role in one's personality, it works so as to meet the baby's essential needs. It operates on the pleasure principle and focuses on

Pi V232 Psychoanalytic Rsch

Puja Mehta
