Pierre Boulez:

Orientalism Pierre Boulez, 1990-03 Pierre Boulez is one of the most influential and controversial figures in the world of contemporary music. As composer, conductor, and critic, his challenging views of modern developments are lent a special authority by his high standing as an interpreter of classic composers. *Orientalism* will enhance his reputation as a lucid expositor of the modern composer's world. When writing about composing and analysis, Boulez forges a new way of thinking about music. He is immensely illuminating about his own compositions. He offers special insight on composers with whom he has been particularly associated as a conductor, including Berlioz, Debussy, Wagner, Mahler, Schoenberg, Stravinsky, and Messiaen. And he writes about performance and orchestras, tackling the question of how to make new music more familiar for the concertgoer. This rich and wide-ranging volume is truly a special resource for everyone wanting to learn more about twentieth-century music.

Boulez Joan Peyser, 1976 Explores the post-World War II modern music movement through the life of Pierre Boulez, the influential and provocative composer and controversial conductor of the New York Philharmonic.

Conversations with Boulez Pierre Boulez, 1996 Amadeus A giant of postwar music and the most powerful figure in the contemporary French music scene, Pierre Boulez talks about his career as one of the world's most controversial conductors and daring programmers of musical text. These candid interviews give us vintage Boulez: his bold views, enigmatic wit, practical wisdom, and uncompromising beliefs.

Music Lessons Pierre Boulez, 2019-10-17 The eminent French composer's groundbreaking lectures, available for the first time in English, are a major event. Alex Ross Music Lessons collects the yearly lectures of French composer Pierre Boulez prepared for the Collège de France between 1976 and 1995. These lectures offer a sustained intellectual engagement with themes of creativity in music by a widely influential cultural figure who has long been central to the conversation around contemporary music. In his essays, Boulez explores the process through which a musical idea is realized in a full-fledged composition, the complementary roles of craft and inspiration, the degree to which the memory of other musical works can influence and change the act of creation, and other deeply fascinating topics. Boulez also gives a penetrating account of problems in classical music that are still present today, such as the crippling conservatism of many musical institutions. Woven into the discussion are stories of Boulez's own compositions and those of fellow composers whose work he championed as both a critic and conductor, from Stravinsky to Stockhausen and Varèse, from Bartók to Berg, Debussy to Mahler and Wagner, and all the way back to Bach. This edition includes a foreword by Jean-Jacques Nattiez and a preface by Jonathan Goldman.

Dialogues with Boulez Rocco Di Pietro, 2001 Pierre Boulez is arguably classical music's most important living composer and conductor. In this book of dialogues with author Rocco Di Pietro, Mr. Boulez reveals delightful ideas and insights on composition and imagination, listening and teaching, and muses on the nature of youth, communication, and fame.

Pierre Boulez and the Piano Peter O'Hagan, 2016-09-30. Pierre Boulez's first piano pieces date from his youth prior to his studies in Paris with Messiaen and his subsequent meteoric rise to international acclaim as the leader of the musical avant-garde during the 1950s. His most recent published work is a solo piano piece, *Une page d'aphormide*, written some sixty years after his first attempts at composition. The piano has remained central to Boulez's creative work throughout his career and although his renown as a conductor has to some extent overshadowed his other achievements, it was as a performer of his own piano music that his practical gifts first found expression. Peter O'Hagan has given performances of various unpublished piano works by Boulez including *Antiphonie* from the *Third Sonata* and *Trois Psalmodies*. In this study he considers Boulez's writing for the piano in the context of the composer's stylistic evolution throughout the course of his development. Each of the principal works is considered in detail, not only on its own terms but also as a stage in Boulez's ongoing quest to invent radical solutions to the renewal of musical language and to reinvigorate tradition. The volume includes reference to hitherto unpublished source material which sheds light on his working methods and on the interrelationship between works.

Boulez at 70 Pierre Boulez, 1995. *Musical Portraits* Joshua S. Walden, 2017-12-05. Joshua S. Walden's *Musical Portraits: The Composition of Identity in Contemporary and Experimental Music* explores the wide-ranging but under-examined genre of musical portraiture. It focuses in particular on contemporary and experimental music created between 1945 and the present day, an era in which conceptions of identity have changed alongside increasing innovation in musical composition as well as in the uses of abstraction, mixed media and other novel techniques in the field of visual portraiture. In the absence of physical likeness, an element typical of portraiture that cannot be depicted in sound, composers have experimented with methods of constructing other attributes of identity in music such as character, biography and profession. By studying musical portraits of painters, authors and modern celebrities in addition to composers' self-portraits, the book considers how representational and interpretive processes overlap and differ between music and other art forms as well as how music is used in the depiction of human identities. Examining a range of musical portraits by composers including Peter Ablinger, Pierre Boulez, Morton Feldman, Philip Glass, György Ligeti and Virgil Thomson and director Robert Wilson's ongoing series of

video portraits of modern day celebrities and his portrait opera Einstein on the Beach Musical Portraits contributes to the study of music since 1945 through a detailed examination of contemporary understandings of music s capacity to depict identity and of the intersections between music literature theater film and the visual arts
