Rilke In Transition:

Rilke in Transition James Rolleston, 1970 **Rilke in transition** James Lancelot Rolleston, 1969 **Transition**, 1927 *Rainer Maria Rilke's 'Gedichte An Die Nacht'* Anthony Stephens, 1972-05-25 An analysis of Rilke's *Gedichte an die Nacht* and the influence of this collection on his most outstanding work the *Duinese Elegien* *Transition* Eugène Jolas, 1927 **Rilke's Sonnets to Orpheus** Hannah Vandegrift Eldridge, Luke Fischer, 2019-05-10 Written in three weeks of creative inspiration Rainer Maria Rilke's *Sonnets to Orpheus* 1923 is well known for its enigmatic power and lyrical intensity The essays in this volume forge a new path in illuminating the philosophical significance of this late masterpiece Contributions illustrate the unique character and importance of the *Sonnets* their philosophical import as well as their significant connections to the *Duino Elegies* completed in the same period The volume features eight essays by philosophers literary critics and Rilke scholars which approach a number of the central themes and motifs of the *Sonnets* as well as the significance of their formal and technical qualities An introductory essay co-authored by the editors situates the book in the context of philosophical poetics the reception of Rilke as a philosophical poet and the place of the *Sonnets* in Rilke's oeuvre Above all this volume's premise is that an interdisciplinary approach to poetry and more specifically to Rilke's *Sonnets* can facilitate crucial insights with the potential to expand the horizons of philosophy and criticism Essays elucidate the relevance of the *Sonnets* to such wide ranging topics as phenomenology and existentialism hermeneutics and philosophy of language philosophy of mythology metaphysics Modernist aesthetics feminism ecocriticism animal ethics and the philosophy of technology **The Heidegger Dictionary** Daniel O. Dahlstrom, 2013-02-07 A concise and accessible dictionary of the key terms used in Heidegger's philosophy his major works and philosophical influences *Monatshefte*, 1972 *Heidegger and the Will* Bret W. Davis, 2007-04-11 The problem of the will has long been viewed as central to Heidegger's later thought Focusing on this problem this book aims to clarify key issues from the philosopher's later period and demonstrates how his so-called turn is not a simple turnaround from voluntarism to passivism **Rilke's Duino Elegies** Romano Guardini, 1961 *Sergei Esenin, Poet of the Crossroads* Lynn Visson, 1980 **Rilke's Russia** Anna A. Tavis, 1994 Explores the biographical and textual evidence of Russia's importance in shaping the writer Rainer Maria Rilke's aesthetic perception During Rilke's two trips to Russia at the turn of the century he made connections with a number of important artists including Leo Tolstoy and Nikolai Leskov and the author traces the impact of these meetings and other experiences in Russia upon Rilke's writing Annotation copyright by Book News Inc Portland OR *The Reader's Adviser* Winifred F. Courtney, 1977 **MLN.**, 1971 *MLN* pioneered the introduction of contemporary continental criticism into American scholarship Critical studies in the modern languages Italian Hispanic German French and recent work in comparative literature are the basis for articles and notes in *MLN* Four single language issues and one comparative literature issue are published each year *Of Angels, Things, and Death* Mark Luprecht, 1999 Frequently hailed as the

capstone of Paul Klee's career his *Composition on a Black Ground* often called *Last Still Life* has never been subjected to extensive analysis This study interprets this masterpiece by placing it within the context of Klee's life work and thought as well as within the larger field of the contemporary European intellectual milieu The result shows Klee as a kindred spirit of well known contemporaries like Rainer Maria Rilke Carl Gustav Jung and Martin Buber and explains how his final painting is the profound comprehensive statement of a dying artist

Incomprehensible Certainty Thomas Pfau, 2022-06-01 Thomas Pfau's study of images and visual experience is a tour de force linking Platonic metaphysics to modern phenomenology and probing literary philosophical and theological accounts of visual experience from Plato to Rilke *Incomprehensible Certainty* presents a sustained reflection on the nature of images and the phenomenology of visual experience Taking the image *eikōn* as the essential medium of art and literature and as foundational for the intuitive ways in which we make contact with our lifeworld Thomas Pfau draws in equal measure on Platonic metaphysics and modern phenomenology to advance a series of interlocking claims First Pfau shows that beginning with Plato's later dialogues being and appearance came to be understood as ontologically distinct from but no longer opposed to one another Second in contrast to the idol that is typically gazed at and visually consumed as an object of desire this study positions the image as a medium whose intrinsic abundance and excess reveal to us its metaphysical function namely as the visible analogue of an invisible numinous reality Finally the interpretations unfolded in this book from Plato Plotinus Pseudo Dionysius John Damascene via Bernard of Clairvaux Bonaventure Julian of Norwich and Nicholas of Cusa to modern writers and artists such as Goethe Ruskin Turner Hopkins Cézanne and Rilke affirm the essential complementarity of image and word visual intuition and hermeneutic practice in theology philosophy and literature Like Pfau's previous book *Minding the Modern* *Incomprehensible Certainty* is a major work With over fifty illustrations the book will interest students and scholars of philosophy theology literature and art history
