On Being Human G. Marian Kinget, 1987-08-27 **On Being Human** G. Marian Kinget, 1987 Christian Perspectives on Being Human J. P. Moreland, David M. Ciochi, 2015-01-26 While there is a unity to truth from God's perspective there are nevertheless many different ways of knowing, studying and defining that truth. Thus the task of integration is the task of relating theology and other disciplines in such a way that one articulates and defends a comprehensive unified Christian worldview. Christian Perspectives on Being Human is a vital step in that essential process of integration. In this unique anthology colleagues from various departments at Biola University undertake an important multidisciplinary approach to integration. J. P. Moreland and David Ciochi represent philosophy in this discussion. Robert Saucy, theology. Sherwood Lingenfelter, anthropology. Nancy Duvall and Keith Edwards, psychology. Walt Russell and Scott Rae, New Testament and medical ethics. Klaus Issler, Christian education. **Biopolitics and International Values** Ralph Pettman, 2016-07-01
Biopolitics and International Values Empowerment of the Catholic Laity in the Nigerian Political Situation Peter Chidi Okuma, 2009. In light of this research work the Vatican II Council remains a landmark and its document *Apostolicam Actuositatem* what we decided to call a Text of witness of actions for the Catholic Laity, the Decree on the Apostolate of the Laity *inter alia Lumen gentium* and *Gaudium et spes* that border on the mission of the Catholic Laity in the human society is a great achievement. After the Vatican II Council the Church saw the need to enhance and harness the witnessing message of the Council for the Catholic Laity mission in the Church and in the world. In the light of the foregoing this work is part of these efforts. We developed a hermeneutical model via the political theology of Johann Baptist Metz in the light of the Vatican II Council message that becomes a challenge for concrete action of the Nigerian Catholic Laity in the existential socio-political situation of Nigeria. **Catalog of Copyright Entries. Being Human, Becoming Human Jens Zimmermann, Brian Gregor, 2010-08-01 Who are we? What does it mean to be human? What is the purpose of our existence? In our time these continue to be urgent questions. The German theologian Dietrich Bonhoeffer thought deeply about these questions out of a desire to understand the importance of Christ and the incarnation for modern culture. His conviction that Christ died for a new humanity is at the core of his theological anthropology. Bonhoeffer's Christ-centered Trinitarian theology establishes the intrinsic sociality of humanity as made in the image of God. *Being Human, Becoming Human* assembles a distinguished and international group of scholars to examine Bonhoeffer's understanding of human sociality. From the introduction of his dissertation *Sanctorum Communio* where he notes the social intention of all the basic Christian concepts to his final writings in prison where he describes Christian faith as being for others, the theme of human sociality runs throughout Bonhoeffer's works. This theme links Bonhoeffer with contemporary concerns in theology, philosophy, cultural studies and science regarding human reason, human nature and their socio-cultural expressions. Vital reading for Bonhoeffer scholars as well as for those invested in theological debates regarding the social

nature of human being the essays in this volume examine Bonhoeffer's rich resources for thinking about what it means to be human to be the church to be a disciple and to be ethically responsible in our contemporary world

Kinget, 2000-01-10 The Master Myth of Modern Society extends the late Dr Kinget's life work as professor psychotherapist and author Defining myth as a perennial psycho social phenomenon that expresses an internal compulsion towards understanding the unknown Kinget one of the original humanistic psychologists argues that the rhetoric ideology and mystique surrounding modern science constitutes the master myth of our times She evaluates science as myth in terms of both its beneficial effects and its debilitating qualities Along these lines Kinget views the notion of objectivity as an essential element of this myth noting that the questions we ask and the answers we seek are constantly being reconstructed according to spiritual need With a bibliography of time honored authors this short work can serve as a springboard for further exploration of human beings traditional and modern mentality as expressed in myths society religion and psychological queries Relevant for understanding contemporary society this book will be of value to students of psychology sociology anthropology and integrated social sciences

The Journal of Transpersonal Psychology, 1975 *Classification of Nursing Diagnoses* Mi Ja Kim, Derry Ann Moritz, 1982 Being Human Roger Smith, 2007-09-11 Challenging commonly held biological religious and ethical beliefs internationally well known historian of science Roger Smith boldly argues that human nature is not some thing awaiting discovery but is active in understanding itself According to Smith being human is a self creation made possible through a reflective circle of thought and action with a past and a future and studying this history from a range of perspectives is fundamental to human self understanding Smith's argument brings together historical and contemporary debates concerning materialism and human nature and the relations of the different fields of knowledge He draws on classic writings from across the human sciences touching on sociology anthropology brain sciences history philosophical hermeneutics and critical theory and demonstrates that there is no position outside history for an absolutely objective or eternally valid view of human nature The question what is human does not have and could not possible have one answer Instead there exists a variety of answers for different purposes and there are good reasons for the many conceptions of what it is to be human Smith does not treat human nature as only biological economic or

moral but as a multidimensional subject that should be considered in its proper historical context By understanding this context Smith believes we can come to a truer understanding of ourselves Persuasively and elegantly written Being Human takes an important new turn in the philosophical study of being human *A Treatise on Human Nature* David Hume,1878
