On Longing:

On Longing Susan Stewart, 2007 *Pr s de l d* Miniature books eighteenth century novels Tom Thumb weddings tall tales and objects of tourism and nostalgia this diverse group of cultural forms is the subject of *On Longing* a fascinating analysis of the ways in which everyday objects are narrated to animate or realize certain versions of the world Originally published in 1984 Johns Hopkins University Press and now available in paperback for the first time this highly original book draws on insights from semiotics and from psychoanalytic feminist and Marxist criticism Addressing the relations of language to experience the body to scale and narratives to objects Susan Stewart looks at the miniature as a metaphor for interiority and at the gigantic as an exaggeration of aspects of the exterior In the final part of her essay Stewart examines the ways in which the souvenir and the collection are objects mediating experience in time and space *On Longing* Susan Stewart, 1998

The Stuff of Spectatorship Caetlin Benson-Allott, 2021-04-06 Film and television create worlds but they are also of a world a world that is made up of stuff to which humans attach meaning Think of the last time you watched a movie the chair you sat in the snacks you ate the people around you maybe the beer or joint you consumed to help you unwind all this stuff shaped your experience of media and its influence on you The material culture around film and television changes how we make sense of their content not to mention the very concepts of the mediums Focusing on material cultures of film and television reception *The Stuff of Spectatorship* argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them This book examines the roles that six different material cultures have played in film and television culture since the 1970s including video marketing branded merchandise drugs and alcohol and even gun violence and shows how objects considered peripheral to film and television culture are in fact central to its past and future

The Cambridge Companion to the English Short Story Ann-Marie Einhaus, 2016-06-06 This Companion provides an accessible overview of short fiction by writers from England Scotland Ireland Wales and other international sites A collection of international experts examine the development of the short story in a variety of contexts from the early nineteenth century to the present They consider how dramatic changes in the publishing landscape during this period such as the rise of the fiction magazine and the emergence of new opportunities in online and electronic publishing influenced the form covering subgenres from detective fiction to flash fiction Drawing on a wealth of critical scholarship to place the short story in the English literary tradition this volume will be an invaluable guide for students of the short story in English *Curating*

Worlds Emma Bond, 2024-12-15 Showing how museum practices shed new light on literary form How and why do books deploy objects in order to narrate the past To answer this question Emma Bond sifts through collections of objects stored in boxes drawers baskets and displayed on shelves in contemporary texts by authors such as Valeria Luiselli Maaza Mengiste Orhan Pamuk and Olga Tokarczuk and interprets them using a framework of museum practices These practices which include collection curation conservation and display have helped to turn real life museums into three dimensional narrative

spaces Curating Worlds Museum Practices in Contemporary Literature shows how we can use this same set of practices to shed light on literary form itself how stories are created shaped and communicated Harnessing museum practices as an innovative lens for critical interpretation Bond provides a fresh theoretical framework to engage with the meanings of object collections in literature and to make sense of the lives and afterlives of things today *Portable Prose* Jarrad Cogle, N. Cyril Fischer, Lydia Saleh Rofail, Vanessa Smith, 2018-11-09 *Portable Prose The Novel and the Everyday* examines the novel as a privileged site for representing the everyday as well as a physical object that occupies public and private space This collection interrogates the relationships between these differing aspects of the novel's existence negotiating the boundaries between the material world subjective experience and strategies of representation This collection offers a wide array of innovative novelistic explorations with a focus ranging from nineteenth century fiction to contemporary literary theory and explores the portability of novels as both physical things and virtual hermeneutic devices While mimetic qualities of prose remain an integral consideration for literary interpretation this collection argues for more diverse frameworks ones that see aesthetic components of the novel in close connection with reading practices shared structures of feeling and the corporeal In this capacity this volume will argue for readings of texts that consider the capacity for literary culture to move through the world but also to make it or re make it new *Contemporary Collecting* Kevin M. Moist, David Banash, 2013-05-09 While the importance of collections has been evident in the sciences and humanities for several centuries the social and cultural significance of collecting practices is now receiving serious attention as well As reflected in programs like Antiques Roadshow and American Pickers and websites such as eBay collecting has had a consistent and growing presence in popular culture In tandem with popular collecting institutions are responding to changes in the collecting environment as library catalogs go online and museums use new technologies to help generate attendance for their exhibits In *Contemporary Collecting Objects Practices and the Fate of Things* Kevin M Moist and David Banash have assembled several essays that examine collecting practices on both a personal and professional level These essays situate collectors and collections in a contemporary context and also show how our changing world finds new meaning in the legacy of older collections Arranged by such themes as Collecting in a Virtual World Changing Relationships with Things Collecting and Identity Personal and Political and Collecting Practices and Cultural Hierarchies these essays help illuminate the role of objects in our lives Covering a breadth of interdisciplinary perspectives and subjects from PEZ candy dispensers and trading cards to sports memorabilia and music *Contemporary Collecting* will be of interest to scholars of cultural studies anthropology popular culture studies sociology art history and more *On Mother* Sarah Ferguson, 2020-02-25 It is a familiar and comforting story a mother's unreserved love across decades and continents The unexpected death of Sarah Ferguson's mother has brought her to understand their relationship with a new clarity and to appreciate the woman beyond the mother *On Mother* is a deeply personal reflection on mothers and daughters and life Honen the Buddhist Saint Shunshō, 1925 The
