## **Making Of Modern Burma:**

**The Making of Modern Burma** Thant Myint-U, Thant Myint-U., 2001-03-26 Burma has often been portrayed as a timeless place a country of egalitarian Buddhist villages ruled successively by autocratic kings British colonialists and most recently a military dictatorship The Making of Modern Burma argues instead that many aspects of Burmese society today from the borders of the state to the social structure of the countryside to the very notion of a Burmese identity are largely the creations of the nineteenth century a period of great change away from the Ava based polity of early modern times and towards the British Burma of the 1900s The book provides a sophisticated and much needed account of the period and as such will be an important resource for policy makers and students as a basis for understanding contemporary politics and the challenges of the modern state It will also be read by historians interested in the British colonial expansion of the nineteenth century Die mykenische Zeit und die Gesittung von Thera ,1976 *Why Now? The Making of Modern Burma* Aung Tun, 2013 **Modern Buddhist Conjunctures in Myanmar** Juliane Schober, 2010-11-30 For centuries Burmese have looked to the authority of their religious tradition Theravada Buddhism to negotiate social and political hierarchies Modern Buddhist Conjunctures in Myanmar examines those moments in the modern history of this Southeast Asian country when religion culture and politics converge to chart new directions Arguing against Max Weber's characterization of Buddhism as other worldly and divorced from politics this study shows that Buddhist practice necessitates public validation within an economy of merit in which moral action earns future rewards The intervention of colonial modernity in traditional Burmese Buddhist worldviews has created conjunctures at which public concerns critical to the nation's future are reinterpreted in light of a Buddhist paradigm of power Author Juliane Schober begins by focusing on the public role of Buddhist practice and the ways in which precolonial Buddhist hegemonies were negotiated Her discussion then traces the emergence of modern Buddhist communities through the colonial experience the disruption of traditional paradigms of hegemony and governance the introduction of new and secular venues to power modern concerns like nationalism education the public place of religion the power of the state and Buddhist resistance to the center The continuing discourse and cultural negotiation of these themes draw Buddhist communities into political arenas either to legitimate political power or to resist it on moral grounds The book concludes with an examination of the way in which Buddhist resistance in 2007 known in the West as the Saffron Revolution was subjugated by military secularism and the transnational pressures of a global economy A skillfully crafted work of scholarship Modern Buddhist Conjunctures in Myanmar will be welcomed by students of Theravada Buddhism and Burma Myanmar readers of anthropology history of religions politics and colonial studies of modern Southeast Asia and scholars of religious and political practice in modern national contexts Corruption, Empire and Colonialism in the Modern Era Ronald Kroeze, Pol Dalmau, Frédéric Monier, 2021-06-15 Answering the calls made to overcome methodological nationalism this volume is the first examination of the links between corruption and imperial rule in the modern world It does

so through a set of original studies that examine the multi layered nature of corruption in four different empires Great Britain Spain the Netherlands and France and their possessions in Asia the Caribbean Latin America and Africa It offers a key read for scholars interested in the fields of corruption colonialism empire and global history The chapters Introduction Corruption Empire and Colonialism in the Modern Era Towards a Global Perspective Corrupt and rapacious Colonial Spanish American past through the eyes of early nineteenth century contemporaries A contribution from the history of emotions and Colonial Normativity Corruption in the Dutch Indonesian Relationship in the Nineteenth and Early Twentieth Centuries are Open Access under a CC BY 4 0 license at link springer com

Ordering Violence Paul Staniland,2021-12-15 In *Ordering Violence* Paul Staniland advances a broad approach to armed politics bringing together governments insurgents militias and armed political parties in a shared framework to argue that governments perception of the ideological threats posed by armed groups drive their responses and interactions Staniland combines a unique new dataset of state group armed orders in India Pakistan Burma Myanmar and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression collusion and mutual neglect across nearly seven decades Instead of straightforwardly responding to the material or organizational power of armed groups Staniland finds regimes assess how a group s politics align with their own ideological projects Explaining for example why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors *Ordering Violence* provides a comprehensive overview of South Asia s complex armed politics embedded within an analytical framework that can also speak broadly beyond the subcontinent

*The Postcolonial Moment in South and Southeast Asia* Gyan Prakash,Nikhil Menon,Michael Laffan,2018-02-22 By exploring themes of fragility mobility and turmoil anxieties and agency and pedagogy this book shows how colonialism shaped postcolonial projects in South and Southeast Asia including India Pakistan Burma and Indonesia Its chapters unearth the contingency and contention that accompanied the establishment of nation states and their claim to be decolonized heirs The book places key postcolonial moments a struggle for citizenship anxious constitution making mass education and land reform against the aftermath of the Second World War and within a global framework relating them to the global transformation in political geography from empire to nation The chapters analyse how futures and ideals envisioned by anticolonial activists were made reality whilst others were discarded Drawing on the expertise of eminent contributors *The Postcolonial Moment in South and Southeast Asia* represents the most ground breaking research on the region
