Making Democracy Leadership Class Gender And Political Participation In Thailand:

Making Democracy James Ockey, 2004-08-31 Democracy in Thailand is the result of a complex interplay of traditional and foreign attitudes. Although democratic institutions have been imported, participation in politics is deeply rooted in Thai village society. A contrasting strand of authoritarianism is present not only in the traditional culture of the royal court but also in the centralized bureaucracies and powerful armed services borrowed from the West. Both attitudes have helped to shape Thai democracy's specific character. This topical volume explores the importance of culture and the roles played by leadership class and gender in the making of Thai democracy. James Ockey describes changing patterns of leadership at all levels of society from the cabinet to the urban middle class to the countryside and suggests that such changes are appropriate to democratic government despite the continuing manipulation of authoritarian patterns. He examines the institutions of democratic government especially the political parties that link voters to the parliament. Political factions and the provincial notables that lead them are given careful attention. The failure to fully integrate the lower classes into the democratic system Ockey argues has been the underlying cause of many of the flaws of Thai democracy. Female political leadership, another imported notion, is better represented in urban rather than rural areas. Yet gender relations in villages were more equitable than at court, Ockey suggests, and these attitudes have persisted to this day. Successful women politicians from a variety of backgrounds have begun to overcome stereotypes associated with female leadership, although barriers remain. With its wide-ranging analysis of Thai politics over the last three decades, *Making Democracy* is an important resource for both students and specialists. [Gender, Informal Institutions and Political Recruitment](#) E.

Bjarnegård, 2013-02-18 Parliaments around the world are still overwhelmingly populated by men, yet studies of male dominance are much rarer than are studies of female underrepresentation. In this book, men in politics are the subjects of a gendered analysis. How do men manage to hold on to positions of power despite societal trends in the opposite direction? And why do men seek to cooperate mainly with other men? Elin Bjarnegård studies how male networks are maintained and expanded and seeks to improve our understanding of the rationale underlying male dominance in politics. The findings build on results both from statistical analyses of parliamentary composition worldwide and from extensive field work in Thailand. A new concept, homosocial capital, is coined and developed to help us understand the persistence of male political dominance.

[Political Authority and Provincial Identity in Thailand](#) Yoshinori Nishizaki, 2018-08-06 The powerful Thai politician Banharn Silpa-archa has been disparaged as a corrupt operator who for years channeled excessive state funds into developing his own rural province. This book reinterprets Banharm's career and offers a detailed portrait of the voters who support him. Relying on extensive interviews, the author shows how Banharm's constituents have developed a strong provincial identity based on their pride in his advancement of their province, Suphanburi, which many now call Banharm-buri, the place of Banharm. Yoshinori Nishizaki's analysis challenges simplistic perceptions of rural Thai voters and raises vital

questions about contemporary democracy in Thailand Yoshinori Nishizaki's close and thorough examination of the numerous public construction projects sponsored and even personally funded by Banharn clearly illustrates this politician's canny abilities and tireless meticulous oversight of his domain Banharn's constituents are aware that Suphanburi was long considered a backward province by other Thais notably the Bangkok elite Suphanburians hold the neglectful central government responsible for their province's former sorry condition and humiliating reputation Banharn has successfully identified himself as the antithesis to the inefficient central state by promoting rapid development and advertising his own role in that development through well publicized donations public ceremonies and visits to the sites of new buildings and highways Much standard literature on rural politics and society in Thailand and other democratizing countries in Southeast Asia would categorize this politician as a typical strongman the boss of a semiviolent patronage network that squeezes votes out of the people That standard analysis would utterly fail to recognize and understand the grassroots realities of Suphanburi that Nishizaki has captured in his study This compassionate well grounded analysis challenges simplistic perceptions of rural Thai voters and raises vital questions about contemporary democracy in Thailand

The Political Economy of the Agri-Food System in Thailand Prapimphan Chiengkul, 2017-05-08 This book adopts a neo Marxist and Gramscian approach to studying the political economy of the agricultural and food system in Thailand 1990-2014 The author argues that hegemonic forces have many measures to co-opt dissent into hegemonic structures and that counter hegemony should be seen as an ongoing process over a long period of time where predominantly counter hegemonic forces constrained by political economic structural conditions may at times retain some hegemonic elements Contrary to what some academic studies suggest the author argues that localist inspired social movements in Thailand are not insular and anti globalisation

Gendered Inequalities in Asia Helle Rydstrøm,2010 Global processes with flows in money commodities and people have made it increasingly varied and blurred what it means to be a female or male in Asia today Socio economic and cultural patterns in Asia intersect with one another and in doing so they translate into power relations that create both possibilities and constraints for women and men By focusing on unequal access to political and religious power occupation and health facilities as well as different options when it comes to family life and sexuality the recognition of women and men are explored in this volume as manifestations of ideas about femininity and masculinity Readers will find insightful and enriching contributions that consider how gender relations in Asia and indeed the very meaning of gender itself are affected by neo liberalism globalization and economic growth security in all of its meanings multiculturalism race and class family life power and intergenerational support religious discourses and activism and by male norms in politics This title highlights the complex ways in which the positions of women and men are configured recognized and contested in a rapidly transforming region It offers a fresh multidisciplinary perspective on gender inequalities

Performing Political Identity Marc Askew,2008 Performing Political Identity is an anthropological account of the multi level dynamics that underlie the continuing electoral dominance of the Democrat Party in southern Thailand a conspicuous anomaly in Thailand s political landscape Based on extensive participant observation and interviews the book presents a detailed study of

candidates support groups and election campaigns in the province of Songkhla in the eventful years 2004 and 2005 highlighting the intimate links between local and national politics Marc Askew argues that the Democrat ascendancy is based on a careful balance between pragmatics and poetics Pragmatics comprises the management of the ambitions and needs of key supporters in tightly knit informal political groups or phuak Poetics involves the cultivation of powerful myths connecting ordinary voters to an idea of the Democrat Party as an embodiment of the idealized qualities of southern Thainess and guardian of southern Thai political culture In the dramatic settings of political rallies southern Democrat voters and politicians alike perform their loyalty and identity as a moral community against political enemies who are demonized as their evil opposites bent on buying votes and eating the country From 2001 Thaksin Shinawatra's Thai Rak Thai Party although triumphant elsewhere in Thailand faced stubborn opposition in the south Again in 2005 against all national trends southern voters stubbornly reaffirmed their loyalty to the Democrats This book the first detailed treatment of the southern Democrat Party in action explores the symbolic and organizational strategies that the party employs to reproduce and sustain its regional political ascendancy
