Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends

facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda

Revitalizing Urban Neighborhoods William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district. However, such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America. This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development. Together they show how urban neighborhoods can and must be preserved as economic, cultural, and political centers.

Planning and Community Equity, 1994 This thought provoking book exhorts planners to establish community development programs that achieve greater social and economic equity. Some of the 13 chapters urge planners to incorporate community equity concerns into traditional planning areas such as transportation and economic development. Others challenge planners to get more involved in social areas such as urban education and community policing. Each chapter is authored by one or more professionals with expertise in the subject at hand. A helpful resource for planners who continue to tackle the problems of inequality.

A Reader in Canadian Planning Jill Grant, 2008 In 1919 the Town Planning Institute of Canada (TPIC) brought together the founders of a new discipline committed to improving cities and those who live in them. TPIC's Journal and its successor Plan Canada provide a wealth of knowledge about Canadian planning. These journals have served as the voice for Canadian urban planning theory, history, and practice. Plan Canada as the journal of record of Canadian planning research and practice continues to inform international discourse about the profession. A Reader in Canadian Planning: Linking Theory and Practice is a selection of some of the most important and provocative articles from Plan Canada from the last 30 years. Articles included in the Reader highlight the accomplishments and contribution of Canadian planning theory and practice. It is suitable as a text for courses in Canadian community planning theory and practice and for those preparing for the Canadian Institute of Planner's entrance examination. Jill Grant's introduction and commentaries develop a theoretical and historical framework to set a context for the papers and the issues they raise.

The City Builders Susan S. Fainstein, 2001 This revised edition examines major redevelopment efforts in New York and London to uncover the forces behind these investment cycles and the role that public policy can play in moderating market instability. It chronicles the progress of three development projects in New York and three in London.

Basic Methods of Policy Analysis and Planning Carl V. Patton, David S. Sawicki, 1993 The book focuses on basic, quickly applied policy analysis methods that can be used to resolve policy problems. There are relevant real life examples used throughout.

Environment & Planning, 2001

Democratic Planning and Social Choice Dilemmas Tore Sager, 2002 Using the economic approach of social choice theory, this unique book examines difficulties found in democratic processes involved in the creation and implementation of planning policies. Special attention is given to communicative planning and the logical reasons why all the desirable properties of dialogue cannot be simultaneously attained.
