Making European Policies Work Comparative Syntheses:

European Governance and Supranational Institutions Jonas Tallberg, 2004-03 This book examines the influence of the European Commission and the European Court of Justice in the political and legal enforcement of member state compliance in the EU The authors show how the EU's supranational institutions have played an independent role in the creation of a European enforcement system that is exceptionally effective compared to that of other international organizations

Europe Des Administrations? Heinrich Siedentopf, Jacques Ziller, 1988 This two volume work describes and analyses the implementation of European Community policies looking at 17 directives with implementation deadlines in 1980 and covering the majority of European sectoral policies Volume One provides major analyses and conclusions drawn from material gathered over two years by ten national research teams It also presents the major discussions and conclusions of the fourth Erenstein Colloquium which brought together professional administrators and experts from twelve Member States and the Community's own institutions to debate the implementation of European Community policies

The SAGE Handbook of European Union Politics Knud Erik Jørgensen, Mark Pollack, Ben Rosamond, 2007-01-03 This volume is one to which anyone trying to make sense of the EU of the early 21st century will return again and again A terrific line up that combines diverse talents from North America and Europe Few books of this kind could live up to the billing definitive benchmark but this one certainly does John Peterson University of Edinburgh A most useful book that can be highly recommended A strong analytical framework coupled with unparalleled coverage of the major issues of the political science research of the EU makes this volume a formidable tool for teaching and a significant input to new scholarly research It is both relatively sophisticated and very accessible to graduate students and advanced researchers The clear writing style and the richness of information presented will certainly make this book interesting for non academic readers Igor Vidacak Institute for International Relations Zagreb Journal of Common Market Studies An admirably comprehensive source book for those interested in how the tools of political science inspire EU area studies The editors enlist leading researchers to synthesize the state of the art in their field of expertise The Handbook of European Union Politics will be an indispensable intellectual resource for researchers teachers and graduate students of the European Union Liesbet Hooghe University of North Carolina at Chapel Hill USA Presents an excellent overview of political science research on the EU It finds the right balance between establishing the state of the art and pointing the reader to theoretical diversity Highly recommended for advanced students and scholars looking for quick and solid orientation in a fragmented field and for new ideas for research Frank Schimmelfennig ETH Zurich Switzerland This is a milestone in the

study of EU politics The authors include the most knowledgeable practitioners in the field and collectively they provide a comprehensive and highly competent overview of the state of theory and research on EU institutions politics and policies Fritz Scharpf Max Planck Institute for the Study of Societies Germany The European Union EU poses quite profound questions for scholars and students of the social and political sciences This benchmark handbook is designed to provide an authoritative state of the art guide to the scope of the field suitable for both established scholars and students of the EU reflect and contribute to the debates about the nature of the field of EU studies and EU politics in particular explore in detail the development of the many approaches to the study of EU politics Divided into four sections the Handbook focuses on theorizing European integration the EU as polity politics and policy making in the EU and the EU and the international system Its appeal will reside not only in its comprehensive and authoritative coverage of the field but also in the quality of its contributors and the diversity of theoretical and methodological approaches included The resulting volume is a must have for all scholars and advanced students of the EU and European integration

EU Neighbourhood Policy in the Maghreb Iole Fontana, 2017-04-07 In light of their geographical proximity and crucial strategic importance the European Union EU has long identified cooperation with the countries of the Mediterranean region a central priority of its external relations and has developed a complex set of policies and instruments Yet there is a certain academic consensus that EU external policies in the area did not live up to their original expectations insofar as little progress was made to accomplish the proclaimed goals while the implementation of structural reforms proved to be extremely problematic These deficiencies in EU Mediterranean policies are symptomatic of what is a greater challenge in EU external policy making the struggle for implementation This book analyses the implementation of the European Neighbourhood Policy in the Mediterranean focusing on specific programs financed under the European Neighbourhood Policy Instrument in the years before and after the Arab uprisings Building on a comparative analysis of two Maghreb countries Tunisia and Morocco it provides an in depth investigation on the role of domestic actors in constraining or providing points of opportunity for the implementation of the ENP The book presents new empirical data and by focusing on the role of local actors in the neighbouring countries it offers interesting insights not only into the ENPI complex processes of implementation but also on the challenges of the E U in the region and the state of relations with the Southern neighbourhood Through the prism of the European Neighbourhood Policy the book provides a window into the internal politics and relevant issues of Maghreb countries It will therefore be a valuable resource for students and scholars of European and Mediterranean Studies as well as those interested in EU international relations

stimulate future thinking in the field Italy and the European Union Federiga Bindi,2011-02-01 A Brookings Institution Press and Scuola Superiore della Pubblica Amministrazione SSPA publication Federiga Bindi provides for the first time an in depth analysis of Italy s role within the European Union EU in this inaugural volume of a book series published jointly by the Brookings Institution Press and the Scuola Superiore della Pubblica Amministrazione Italian National School of Public Administration or SSPA Italy and the European Union relates in detail the historical cultural and sociological factors that have led to Italy s incomplete Europeanization or full integration within the EU It also brings the reader up to date on the steps taken by the country s leaders to improve Italy s standing and become a more effective member in the organization it helped to found Discussing the author s extensive research The Economist notes Federiga Bindi identified a number of barriers to an effective European policy in Italy a high turnover of governments coalition partners with conflicting aims the failure of bureaucrats to learn from other member states and politicians lack of interest in Europe recently however she found that matters had improved An interdepartmental body for the coordination of EU policies has been created Parliament operates an effective scrutiny system the administration has learnt to learn from others But the other problems remain and they are formidable Her study ends on an exasperated note Italy appears to be stuck in the age of the Guelphs and the Ghibellines in which the victory of one faction over another is what counts and the fact that this may be damaging to the country matters little from The Economist July 31 2010 **The European Union and Turkey** Mehmet Ugur,2019-05-23 First published in 1999 this volume draws on the theories of integration credible policy commitments and convergence this book demonstrates that the problematic evolution of the EU Turkey relations has been due to an anchor credibility dilemma neither Turkey s European orientation was a credible commitment nor was the EU s anchoring capacity resolute enough to make policy reversals in Turkey less likely The way out of this dilemma is to re write the existing contracts so that non transparency and the scope for discretion are minimised Comparative Public Management Randall Baker,1994-05-09 In this new approach to a comparative text in public management Randall Baker examines how why and to what extent the public sector around the world has shared in the management revolution The book is designed to isolate and demonstrate the essential American ness of the United States public service by holding it up to the mirror of other developed democracies While there are lessons to be learned from other countries Baker and his expert contributors examine the complexities of making comparisons across cultures even within broadly similar democratic systems and urban industrial economies The volume concludes with a list of sectoral cases These comprise most of the main dimensions of public sector activity around the world They are the main elements of many graduate professional degrees in public affairs and the material has been written with the needs of both practitioners and teachers in mind This is essential reading for all concerned with public management and administration as well as comparative government *The Implementation of the EC Milk Quota Regulations in British, French and German Law* Heike Gehrke,1993 **The Implications of the Evolution of European**

Politics, Subsidies and Competition Kostas A. Lavdas, Maria M. Mendrinou, 1999 Politics Subsidies and Competition focuses on the interplay of political economic and institutional legal factors in the formation of European competition policy with particular emphasis on European Union control of national subsidies This book demonstrates the increasing significance of the EU in the management of European economies It argues that state subsidization is the only remaining effective form of state intervention because in the integrated European market state aid ranging from investment and export aid to special tax concessions has become the only instrument that can be used to favour and protect national industries This makes the control of state subsidization more important than ever and the European Community's attempts to increase this control since the mid 1970s tell an intriguing story of fierce intergovernmental bargaining business lobbying and increasingly assertive EC EU institutions The argument is supported by evidence of the evolution of European policy and by case studies of sectoral aid regimes and their transformation in interaction with EU policy This book will be of use to students and scholars of the economics and politics of Western Europe and regional and public policy

Influencing the European Community Cecilia Andersen, 1992 This study examines the effects of EC decisions on business strategy and the relationship that businesses must form with the EC in order to influence decision making to their own advantage The author explores a range of different businesses such as telecommunications the automobile industry and pharmaceuticals and identifies ways in which they can work effectively with the EC pinpointing areas of concern including competition law and consumer policies A section on the process of lobbying demonstrates how businesses can make the most of what the EC has to offer
