Congress. Office of Technology Assessment, 1993 This report published in its entirety OTA TCT 578 and in a summary form OTA TCT 579 containing only the first chapter of the complete report focuses on key topics and issues that are central to the successful use of electronic delivery by government The review conducted by the Office of Technology Assessment concludes that the movement toward electronic delivery of government services is accelerating but that many factors must be considered The greatest risks of electronic delivery are overlooking the human element and users needs which would further widen the gap between the technologically literate and the technologically illiterate and failing to capitalize on all the opportunities that partnerships among government agencies and the private sector could provide Changes that will be required in federal management are outlined and options for successful implementation of electronic delivery are sketched Many rely on the amplification of existing structures Five appendixes complement the complete report including a list of the 11 boxes 5 figures and 22 tables that illustrate the discussion and lists of acronyms and terms contributors field study participants and contractor reports The summary volume contains four tables and two boxes SLD *Making Government Work* , 1993 **Making Government Work** Tan Parker, 2020-09-29 *Making Government Work* A Conservative Agenda for the States is an updated version of the highly acclaimed 1994 original book It serves as a modern day guide for how as Americans we can move the states forward with common sense conservative public policy initiatives to benefit the Nation as a whole *Making Government Work* is a reminder that conservative reforms set the stage for unprecedented prosperity The book contains a star studded line up of some of today s most powerful voices including Nikki Haley Chuck Norris Rick Perry Kathy Ireland Rick Santorum Chad Hennings Jeb Bush Dr Art Laffer and Bob Woodson along with many more *Making Government Work* is for state government what the Contract with America was for the federal government It is a sensible fact based plan to create a better future through the application of sound principles Newt Gingrich former Speaker of the House The author s proceeds from the book will be donated to organizations that serve America s veterans **Making Government Work** Tex Lezar, 1994-11-01 The

**Indicators and Policies to Make Work Pay** Giuseppe Carone,Aino Salomäki,2005

The Commission s Directorate General for Economic and Financial Affairs hosted a workshop on making work pay policies and indicators in March 2005 a particularly opportune moment to discuss these issues since it coincided with the new start for the Lisbon strategy with its increased focus on growth and jobs

The purpose of the workshop was to contribute to the debate on reforms of tax and benefit systems It took stock of the most recent studies by academic researchers in this area and brought some recently developed indicators on work incentives to the attention of the participants It also provided an opportunity for discussion between academic researchers and labour market experts in national administrations and EU institutions

The papers presented in the workshop demonstrate that there are tangible benefits in bringing together academic researchers and national policy makers to exploit research findings compare experiences and exchange best practices to shape further reforms

This volume brings those contributions together They shed light on highly topical issues such as indicators on incentives the role of incentives eligibility rules and enforcement the responsiveness of labour supply and the lessons that can be learnt from national labour market reforms
