The Hate Debate Paul Iganski, 2002 The hate debate is becoming increasingly urgent in both the US and the UK This provocative collection helps frame that debate by asking all the right questions and at the right time Is justice served when someone committing an act of violence because of prejudice is punished more severely than someone who perpetrates the same assault for other reasons That s the question posed by critics of hate crime laws in the United States It is also the central question addressed in *The Hate Debate* Opponents say that hate crime laws infringe one s right to freedom of expression They maintain that extra punishment is not for the act itself but for the bad VALUES and thoughts motivating the crime On the other hand supporters of hate crime laws argue that greater punishment is warranted because in effect hate crimes hurt more The societal and other harms make hate crimes qualitatively different from crimes motivated on other grounds What explains the emergence and extension of hate crime laws in the United States and in Britain Do hate crime laws really create thought crimes Is extra punishment the best way to deal with hate This collection of
