Making History The First Ten Years Kftc:

Making History Melanie A. Zuercher,1991 **Studying Appalachian Studies** Chad Berry,Philip J.

Obermiller,Shaunna L. Scott,2015-06-15 In this collection contributors reflect on scholarly artistic activist educational and practical endeavor known as Appalachian Studies Following an introduction to the field the writers discuss how Appalachian Studies illustrates the ways interdisciplinary studies emerge organize and institutionalize themselves and how they engage with intellectual political and economic forces both locally and around the world Essayists argue for Appalachian Studies integration with kindred fields like African American studies women s studies and Southern studies and they urge those involved in the field to globalize the perspective of Appalachian Studies to commit to continued applied participatory action and community based research to embrace more fully the field s capacity for bringing about social justice to advocate for a more accurate understanding of Appalachia and its people and to understand and overcome the obstacles interdisciplinary studies face in the social and institutional construction of knowledge Contributors Chris Baker Chad Berry Donald Edward Davis Amanda Fickey Chris Green Erica Abrams Locklear Phillip J Obermiller Douglas Reichert Powell Michael Samers Shaunna L Scott and Barbara Ellen Smith *To Save the Land and People* Chad Montrie,2003-11-20 Surface coal mining has had a dramatic impact on the Appalachian economy and ecology since World War II exacerbating the region s chronic unemployment and destroying much of its natural environment Here Chad Montrie examines the twentieth century movement to outlaw surface mining in Appalachia tracing popular opposition to the industry from its inception through the growth of a militant movement that engaged in acts of civil disobedience and industrial sabotage Both comprehensive and comparative *To Save the Land and People* chronicles the story of surface mining opposition in the whole region from Pennsylvania to Alabama Though many accounts of environmental activism focus on middle class suburbanites and emphasize national events the campaign to abolish strip mining was primarily a movement of farmers and working people originating at the local and state levels Its history underscores the significant role of common people and grassroots efforts in the American environmental movement This book also contributes to a long running debate about American values by revealing how veneration for small private properties has shaped the political consciousness of strip mining opponents

Something's Rising Silas House,Jason Howard,2009-04-17 Like an old fashioned hymn sung in rounds *Something's Rising* gives a stirring voice to the lives culture and determination of the people fighting the destructive practice of mountaintop removal in the coalfields of central Appalachia Each person s story unique and unfiltered articulates the hardship of living in these majestic mountains amid the daily desecration of the land by the coal industry because of America s insistence on cheap energy Developed as an alternative to strip mining mountaintop removal mining consists of blasting away the tops of mountains dumping waste into the valleys and retrieving the exposed coal This process buries streams pollutes wells and waterways and alters fragile ecologies in the region The people who live work and raise families in central

Appalachia face not only the physical destruction of their land but also the loss of their culture and health in a society dominated by the consequences of mountaintop removal. Included here are oral histories from Jean Ritchie the mother of folk who doesn't let her eighty six years slow down her fighting spirit, Judy Bonds a tough talking coal miner's daughter, Kathy Mattea the beloved country singer who believes cooperation is the key to winning the battle, Jack Spadaro the heroic whistle blower who has risked everything to share his insider knowledge of federal mining agencies, Larry Bush who doesn't back down even when speeding coal trucks are used to intimidate him, Denise Giardina a celebrated writer who ran for governor to bring attention to the issue and many more. The book features both well known activists and people rarely in the media. Each oral history is prefaced with a biographical essay that vividly establishes the interview settings and the subjects connections to their region. Written and edited by native sons of the mountains, this compelling book captures a fever pitch moment in the movement against mountaintop removal. Silas House and Jason Howard are experts on the history of resistance in Appalachia, the legacy of exploitation of the region's natural resources and area's unique culture and landscape. This lyrical and informative text provides a critical perspective on a powerful industry. The cumulative effect of these stories is stunning and powerful. *Something's Rising* will long stand as a testament to the social and ecological consequences of energy at any cost and will be especially welcomed by readers of Appalachian studies, environmental science and by all who value the mountain's majesty, our national heritage.

A History of Environmental Politics Since 1945 Samuel P. Hays, 2000-10-15. Long before public life in America was enlivened with such dramatic sound bites as acid rain, global warming, rain forests and the ozone layer, Samuel P. Hays was well launched on his career of tracking this new phenomenon of environmental affairs. His first foray, a book on the early twentieth century conservation movement published in 1958, helped to launch environmental history as a field and his continued writings after coming to the University of Pittsburgh in 1960 helped to bring the field to full flower. Now he has produced another volley which promises to continue to energize this growing and dynamic field of study. *A History of Environmental Politics since 1945* Hays provides an overview of environmental politics during the last half century, both its formative and its maturing years that will be useful to those who are actively engaged in environmental affairs and those who wish to watch and assess it from the sidelines. His themes are both simple and diverse. His overall focus is on the emergence of an environmental culture which has engaged millions of Americans in varied ways of thought and action on the one hand and the intense opposition to that drive on the other. Hays explores a wide range of issues such as the role of nature in an urban society, pollution and its causes and effects, the impact of an ever increasing population and its voracious appetite to consume. At the same time he follows these threads through science, technology, economics, management, the structure of politics and the results of policy. *A History of Environmental Politics since 1945* provides an introduction to the subject for both the specialist and the lay audience, the general public and the student. It provides a high level of insight that will inform both those who are environmental experts and those who wish to take a first step at grasping the meaning of

environmental affairs It constitutes a formative guide for a subject that promises to engage the nation ever more fully in the years to come We Make Change Kristin Layng Szakos, Joe Szakos, 2007 Community organizers work at their jobs because they are passionate because they believe that change is possible and because they enjoy working with people Although it is not an occupation that leads to great wealth community organizers can make a living at it They get salaries pensions and health insurance They raise families They do well by doing good This book explores the world of community organizing through the voices of real people working in the field in small towns and city neighborhoods women and men of different races and economic backgrounds ranging in age from those in their twenties to those in their sixties Fourteen in depth profiles tell the life stories of a cross section of the diverse people who choose the life of an organizer Other chapters focused on issues of organizing are tapestries of experience woven from the 81 interviews the authors conducted Uneven Ground Ronald D Eller, 2008-10-24 Appalachia has played a complex and often contradictory role in the unfolding of American history Created by urban journalists in the years following the Civil War the idea of Appalachia provided a counterpoint to emerging definitions of progress Early twentieth century critics of modernity saw the region as a remnant of frontier life a reflection of simpler times that should be preserved and protected However supporters of development and of the growth of material production consumption and technology decried what they perceived as the isolation and backwardness of the place and sought to uplift the mountain people through education and industrialization Ronald D Eller has worked with local leaders state policymakers and national planners to translate the lessons of private industrial development history into public policy affecting the region In Uneven Ground Appalachia since 1945 Eller examines the politics of development in Appalachia since World War II with an eye toward exploring the idea of progress as it has evolved in modern America Appalachia's struggle to overcome poverty to live in harmony with the land and to respect the diversity of cultures and the value of community is also an American story In the end Eller concludes Appalachia was not different from the rest of America it was in fact a mirror of what the nation was becoming *Fighting Back in Appalachia* Stephen Fisher, 2009 Citizen resistance and struggle in Appalachia since 1960 Appalachian Journal, 2007 A regional studies review **Making Democracy Work Better** Richard A. Making History The First Ten Years Kftc Introduction

In today's digital age, the availability of Making History The First Ten Years Kftc books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Making History The First Ten Years Kftc books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Making History The First Ten Years Kftc books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Making History The First Ten Years Kftc versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Making History The First Ten Years Kftc books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Making History The First Ten Years Kftc books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Making History The First Ten Years Kftc books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals,

making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Making History The First Ten Years Kftc books and manuals for download have transformed the way we access information.
