Making Of Mission Community:

Church for Every Context Michael Moynagh, 2014-04-15 The first comprehensive textbook on the theology and methodology of Fresh Expressions one of the most important developments within the contemporary church

Accountability in Missions Jonathan J. Bonk, 2011-10-21 The Korean missions movement is perhaps the most significant story of the Church in the world over the past one hundred years Today Korea can boast of being the leading sender of missionaries per head of population Yet this movement has not been well integrated into the global mission community and also this community has at times failed to understand and learn from this tremendous work of God I am excited that God has brought together a unique body of people to wrestle with these issues This work will help bring about much needed collaboration and develop each other's strengths in an environment of mutual respect MALCOLM L MCGREGOR SIM International Director *Accountability in Missions* is a remarkable book exploring the full range of mission accountability issues strategic financial and relational from both Korean and North American perspectives This is global missiology made practical and accessible to all missions practitioners The many articles that penetrate the mysteries of Korean and North American interaction especially make it a must read book for all Koreans and North Americans working together STEVE STRAUSS Professor of Mission and Intercultural Studies Dallas Theological Seminary This collection of essays provides a biblical and theological basis for accountability and brings voices East and West demonstrating that accountability to God and to others is a universal principle not linked to one culture or context i e Western Further the collection is eminently practical addressing matters of governance decision making finance and personal integrity To all mission leaders I say read this book Actually read it but also find colleagues with whom to discuss and digest these principles and review our mission practices GORDON T SMITH President reSource Leadership International

Building Community Capacity Robert J. Chaskin, This book focuses on a gap in current social work practice theory community change Much work in this area of macro practice particularly around grassroots community organizing has a somewhat dated feel to it is highly ideological in orientation or suffers from superficiality particularly in the area of theory and practical application Set against the context of an often narrowly constructed clinical emphasis on practice education coupled with social work's own current rendering of scientific management community practice often takes second or third billing in many professional curricula despite its deep roots in the overall field of social welfare Drawing on extensive case study data from three significant community building initiatives program data from numerous other community capacity building efforts key informant interviews and an excellent literature review Chaskin and his colleagues draw implications for crafting community change strategies as well as for creating and sustaining the organizational infrastructure necessary to support them The authors bring to bear the perspectives of a variety of professional disciplines including sociology urban planning psychology and social work *Building Community Capacity* takes a collaborative interdisciplinary approach to a subject of wide and current concern the role of

neighborhood and community structures in the delivery of human services or as the authors put it a place where programs and problems can be fitted together Social work scholars and students of community practice seeking new conceptual frameworks and insights from research to inform novel community interventions will find much of value in Building Community Capacity *Missions* Howard Benjamin Grose,1924 *Life in California Before the Conquest* Alfred Robinson,1925 **Summary Record, Community Development** United States. International Cooperation Administration,1955 **The Missions and Missionaries of California** Zephyrin Engelhardt,1912 Comprehensive history of the Jesuit Franciscan and Dominican missionaries in Lower California and of the Franciscans in Upper California **A Method of Making a Social Survey of a Rural Community** Charles Josiah Galpin,University of Wisconsin. Burnett,1926
