Making Of Post War Canada:

Creating Postwar Canada Magda Fahrni, Robert Rutherford, 2008-07-01 Creating Postwar Canada showcases new research on this complex period exploring postwar Canada's diverse symbols and battlegrounds. Contributors to the first half of the collection consider evolving definitions of the nation, examining the ways in which Canada was reimagined to include both the Canadian North and landscapes structured by trade and commerce. The essays in the latter half analyze debates on shopping hours, professional striptease, the provider role of fathers, interracial adoption, sexuality on campus, and illegal drug use issues that shaped how the country defined itself in sociocultural and political terms. This collection contributes to the historiography of nationalism, gender, and the family, consumer cultures, and countercultures. *Cultures of Citizenship in Post-war Canada, 1940 - 1955* Nancy Christie, Michael Gauvreau, 2004-01-15 The years between the end of World War II and the mid 1960s have usually been viewed as an era of political and social consensus made possible by widely diffused prosperity, creeping Americanization, and fears of radical subversion, and a dominant culture challenged periodically by the claims of marginal groups. By exploring what were actually the mainstream ideologies and cultural practices of the period, the authors argue that the postwar consensus was itself a precarious cultural ideal that was characterized by internal tensions and while containing elements of conservatism, reflected considerable diversity in the way in which citizenship identities were defined. Contributors include Denyse Baillargeon, Université de Montréal, P. E. Bryden, Mount Allison University, Nancy Christie, Michael Gauvreau, Karine Hebert, Carleton University, Len Kuffert, Carleton University, and Peter S. McInnis, St. Francis Xavier University.

Labour Goes to War Wendy Cuthbertson, 2012-06-15 During the Second World War, the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to a position of influence in the emergence of the welfare state. What was it about the good war that brought about this phenomenal growth? *Labour Goes to War* analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work. Labour shortages gave workers greater power in the workplace and increased their militancy. But workers' patriotism, their ties to those on active service, and allegiance to the people's war also contributed to the CIO's growth and to what it claimed for workers. Drawing on a wealth of archival material, Wendy Cuthbertson illuminates this complex wartime context. She also shows how the complex, often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent, progressive-conservative legacy.
