Making Babies:

Making Babies Jill Blakeway, Sami S. David, 2009-08-12 Making Babies offers a proven 3 month program designed to help any woman get pregnant Fertility medicine today is all about aggressive surgical chemical and technological intervention but Dr David and Blakeway know a better way Starting by identifying fertility types they cover everything from recognizing the causes of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine decreasing doses of fertility drugs or getting acupuncture along with IVF Making Babies is a must have for every woman trying to conceive whether naturally or through medical intervention Dr David and Blakeway are revolutionizing the fertility field one baby at a time

Making Babies, Making Families Mary L. Shanley, 2002-04-16 Thanks to new reproductive technologies and new ways of forming families the world of parenting is opening up as never before What defines a legal family Should there be any restrictions on buying and selling eggs and sperm or hiring surrogate mothers How many parents can a child have While there s no going back to the traditional family Mary Lyndon Shanley shows us that we don t have to live in moral chaos She offers a new vision of family law that puts each child s right to be cared for at its center while also taking into account the complex needs of every family member

Embryo Culture Beth Kohl, 2007-08-07 Injections Appointments Egg Retrieval Embryo Transfer Resources Energy x Time x Emotion That s the equation that was projected onto the screen when Beth Kohl and her husband first showed up at the in vitro fertilization IVF clinic Good evening the program s psychologist told the gathered infertile couples Before you begin your treatment you

should know that this program is emotionally and psychologically stressful And how In this marvelously unconventional account of her struggles to bear children Kohl leads the reader on an oh so up close tour of fertilization in America and the ways in which science and miracle technology and faith converge to create life in the twenty first century Along the way Kohl wrestles with a new world of medical ethics Should she selectively reduce the number of embryos successfully implanted in the womb in order to prevent a potentially complicated pregnancy How much genetic testing of fertilized eggs is too much What is she supposed to do with the seven embryos left over from the IVF process When Andrew Solomon wrote The Noonday Demon he opened the world of depression to readers as no writer had done before And when Stephen L Carter wrote Reflections of an Affirmative Action Baby many readers were forced to completely rethink race and prejudice Kohl s spirited and rich exploration of embryo culture will completely revise how we see modern motherhood
