Making Crime Pay:

Making Crime Pay Katherine Beckett, 1999-11-18 Most Americans are not aware that the US prison population has tripled over the past two decades nor that the US has the highest rate of incarceration in the industrialized world Despite these facts politicians from across the ideological spectrum continue to campaign on law and order platforms and to propose three strikes and even two strikes sentencing laws Why is this the case How have crime drugs and delinquency come to be such salient political issues and why have enhanced punishment and social control been defined as the most appropriate responses to these complex social problems **Making Crime Pay** Law and Order in Contemporary American Politics provides original fascinating and persuasive answers to these questions According to conventional wisdom the worsening of the crime and drug problems has led the public to become more punitive and tough anti crime policies are politicians collective response to this popular sentiment Katherine Beckett challenges this interpretation arguing instead that the origins of the punitive shift in crime control policy lie in the political rather than the penal realm particularly in the tumultuous period of the 1960s

Making Crime Pay Harold S. Long, 1988 Professional methods and techniques for information and intelligence gathering now revealed for you to use Now you can find out anything you want to know about anyone you want to know about Satisfy your need to know with these revealing professional manuals on investigation crime and police sciences What does it take to succeed at a criminal activity What does it take to make crime pay Written by a professional criminal this book delves deeply into the realities of the criminal justice system and offers many hard won suggestions for successfully evading the system It is packed with information not available anywhere else except maybe in jail It explains what makes some criminals successful while others get caught It also discusses how to deal with police courts and the criminal justice system to minimize apprehension and conviction Everything you read here will be fact recounted in part from personal experiences and in part from the experiences of inmates across the country

Making Crime Pay Andrea Campbell, 2006-03-02 Making Crime Pay is an invaluable reference to criminal law evidence and procedure and the potential it holds for breathtaking plots and dramatic storytelling Readers will learn in detail how criminal law has evolved historically discover the differences between crimes and how they are judged in the eyes of the law and understand law s mechanisms and loopholes from the first thought of a crime to the offender s arrest and trial

Building the Prison State Heather Schoenfeld, 2024-05-31 The United States incarcerates more people per capita than any other industrialized nation in the world about 1 in 100 adults or more than 2 million people while national spending on prisons has catapulted 400 percent Given the vast racial disparities in incarceration the prison system also reinforces race and class divisions How and why did we become the world s leading jailer And what can we as a society do about it Reframing the story of mass incarceration Heather Schoenfeld illustrates how the unfinished task of full equality for African Americans led to a series of policy choices that expanded the government s

power to punish even as they were designed to protect individuals from arbitrary state violence Examining civil rights protests prison condition lawsuits sentencing reforms the War on Drugs and the rise of conservative Tea Party politics Schoenfeld explains why politicians veered from skepticism of prisons to an embrace of incarceration as the appropriate response to crime To reduce the number of people behind bars Schoenfeld argues that we must transform the political incentives for imprisonment and develop a new ideological basis for punishment From Enforcers to Guardians Hannah L. F. Cooper, Mindy Thompson Fullilove, 2020-01-14 A public health approach to understanding and eliminating excessive police violence Excessive police violence and its disproportionate targeting of minority communities has existed in the United States since police forces first formed in the colonial period A personal tragedy for its victims for the people who love them and for their broader communities excessive police violence is also a profound violation of human and civil rights Most public discourse about excessive police violence focuses understandably on the horrors of civilian deaths In From Enforcers to Guardians Hannah L F Cooper and Mindy Thompson Fullilove approach the issue from a radically different angle as a public health problem By using a public health framing this book challenges readers to recognize that the suffering created by excessive police violence extends far outside of death to include sexual psychological neglectful and nonfatal physical violence as well Arguing that excessive police violence has been deliberately used to marginalize working class and minority communities Cooper and Fullilove describe what we know about the history distribution and health impacts of police violence from slave patrols in colonial times to war on drugs policing in the present day United States Finally the book surveys efforts including Barack Obama s 2015 creation of the Task Force on 21st Century Policing to eliminate police violence and proposes a multisystem multilevel strategy to end marginality and police violence and to achieve guardian policing Aimed at anyone seeking to understand the causes and distributions of excessive police violence and to develop interventions to end it From Enforcers to Guardians frames excessive police violence so that it can be understood researched and taught about through a public health lens **Breaking the Pendulum** Philip Russell Goodman, Joshua Page, Michelle Phelps, 2017 In Breaking the Pendulum Philip Goodman Joshua Page and Michelle Phelps debunk the pendulum model of American criminal justice arguing that it distorts how and why punishment changes From the birth of the penitentiary through recent reforms the authors show how the struggle of players in the penal field shapes punishment Texas Tough Robert Perkinson, 2010-03-11 A vivid history of America s biggest baddest prison system and how it came to lead the nation s punitive revolution In the prison business all roads lead to Texas The most locked down state in the nation has led the way in criminal justice severity from assembly line executions to isolation supermaxes from prison privatization to sentencing juveniles as adults Texas Tough a sweeping history of American imprisonment from the days of slavery to the present shows how a plantation based penal system once dismissed as barbaric became the national template Drawing on convict accounts official records and interviews with prisoners guards and lawmakers historian Robert Perkinson reveals the Southern roots of our present day

prison colossus While conventional histories emphasize the North's rehabilitative approach he shows how the retributive and profit driven regime of the South ultimately triumphed Most provocatively he argues that just as convict leasing and segregation emerged in response to Reconstruction so today's mass incarceration with its vast racial disparities must be seen as a backlash against civil rights Illuminating for the first time the origins of America's prison juggernaut Texas Tough points toward a more just and humane future

Still a House Divided Desmond King, Rogers M. Smith, 2011-08-22 Why race remains the central political issue in America today Why have American policies failed to reduce the racial inequalities still pervasive throughout the nation Has President Barack Obama defined new political approaches to race that might spur unity and progress Still a House Divided examines the enduring divisions of American racial politics and how these conflicts have been shaped by distinct political alliances and their competing race policies Combining deep historical knowledge with a detailed exploration of such issues as housing employment criminal justice multiracial census categories immigration voting in majority minority districts and school vouchers Desmond King and Rogers Smith assess the significance of President Obama's election to the White House and the prospects for achieving constructive racial policies for America's future Offering a fresh perspective on the networks of governing institutions political groups and political actors that influence the structure of American racial politics King and Smith identify three distinct periods of opposing racial policy coalitions in American history The authors investigate how today's alliances pit color blind and race conscious approaches against one another contributing to political polarization and distorted policymaking Contending that President Obama has so far inadequately confronted partisan divisions over race the authors call for all sides to recognize the need for a balance of policy measures if America is to ever cease being a nation divided Presenting a powerful account of American political alliances and their contending racial agendas Still a House Divided sheds light on a policy path vital to the country's future
