Representation Et Prasence:

Meaning, Truth, and Reference in Historical Representation Frank R. Ankersmit, 2012-04-24 In this book the noted intellectual historian Frank Ankersmit provides a systematic account of the problems of reference truth and meaning in historical writing He works from the conviction that the historicist account of historical writing associated primarily with Leopold von Ranke and Wilhelm von Humboldt is essentially correct but that its original idealist and romanticist idiom needs to be translated into more modern terms Rehabilitating historicism for the contemporary philosophy of history he argues reveals the basic truths about the nature of the past itself how we relate to it and how we make sense of the past in historical writing At the heart of Ankersmit s project is a sharp distinction between interpretation and representation The historical text he holds is first and foremost a representation of some part of the past not an interpretation The book s central chapters address the concept of historical representation from the perspectives of reference truth and meaning Ankersmit then goes on to discuss the possible role of experience in the history writing which leads directly to a consideration of subjectivity and ethics in the historian s practice Ankersmit concludes with a chapter on political history which he maintains is the basis and condition of all other variants of historical writing Ankersmit s rehabilitation of historicism is a powerfully original and provocative contribution to the debate about the nature of historical writing

Derrida Wordbook Maria-Daniella Dick, 2013-02-27 A glossary of words associated with Jacques Derrida accommodating the far reaching implications of his work This cornucopia of words and definitions intervenes at crucial points of tension across the entire range of Derrida s publications including those published posthumously It offers sustained expository engagement with a series of 67 key words from Aporia to Yes having significance throughout Derrida s thought and writing Touching on the literary as well as on political aesthetic phenomenological and psychoanalytic discourses and tracing how Derrida s own practice of close reading shadows faithfully the texts he reads before producing a breaking point in the logical limits of a given text each word the essays illustrate is not a final word Instead each shows itself through close reading that places the terms figures tropes and motifs in their broader contexts to be a gateway opening on to innumerable interconnected concerns that inform the work of Jacques Derrida

Text, Image, and the Problem with Perfection in Nineteenth-Century France Daniel Sipe, 2016-04-01 In the decades after the French Revolution philosophers artists and social scientists set out to chart and build a way to a new world and their speculative blueprints circulated like banknotes in a parallel economy of ideas Examining representations of ideal societies in nineteenth century French culture Daniel Sipe argues that the dream image of the literary or art historical utopia does not disappear but rather is profoundly altered by its proximity to the social utopianism of the day Sipe focuses on this persistent afterlife in utopias ranging from Fran ois Ren de Chateaubriand s

Amerindian utopia in Atala 1801 to the utopian spoof of J J Grandville's illustrated novel *Un autre monde* 1844 He proposes a new reading of Etienne Cabet's seminal utopian novel *Voyage en Icarie* 1840 and offers an original perspective on the gendered utopias of technological inspiration that authors such as Charles Barbara and Auguste Villiers de l'Isle Adam penned in the second half of the century In addition Sipe considers utopias or important readings of the century's rampant utopianism in among others Victor Hugo Alfred de Vigny Thophile Gautier Charles Baudelaire and Gustave Courbet His book provides the historical context for comprehending the significance and implications of this enigmatic afterlife in nineteenth century utopian art and literature
