Producing Animation Catherine Winder,Zahra Dowlatabadi,2013 Drawing heavily from the authors twenty years of combined experience Producing Animation offers a clear overview of this exciting industry

and a comprehensive guide to the process of developing a project from conception to final delivery. Written from the perspective of a producer, this book offers the foundation of how a project is created in addition to describing the role of the producer at each phase. Answers are provided to many of the most commonly asked questions about animation, ranging from how to enter the business to the average cost and schedule for a prime time animated series. Producing Animation has the first of its kind comprehensive chart of accounts for animation named the Animation Budget Builder, which can be individually tailored for each project. Visit www.MovieMagicProducer.com for more details. Students, aspiring producers, investors, television and studio executives, artists, film line producers, wishing to branch into animation, and legal advisors will find this an invaluable tool. The chapters specifically geared to the pre-production, production, and postproduction processes offer animation producers a wealth of practical advice. Numerous illustrations outline the different steps of production. Forms the authors have devised to help streamline the process are also included. Observations from a wide range of industry professionals, such as studio heads, creators, directors, producers, writers, and members of the production crew, give the reader insight into what it takes to be successful in this business. The authors' personal anecdotes at key process checkpoints relay firsthand experience, illustrating some of the pitfalls a producer must learn to circumvent. Detailed information on preparing a thorough production plan, including the budget, schedule, and crew plan, can also be found in this book.

The Complete Guide to Film and Digital Production Lorene Wales, 2023-08-08. This fully revised fourth edition offers a comprehensive introduction to the roles, procedures, and logistics of the film and digital video production process. Author Lorene M. Wales takes the reader from development and pre-production all the way to post-production, marketing, and distribution, offering a hands-on approach suitable for projects of any budget and scale, explaining every stage and key role in the life of a film. Focusing on how key roles shape the film production process, Wales guides filmmakers through the A-Z of making a film in today's industry and draws from insights and experiences from working filmmakers throughout. The book is practically focused and includes a wealth of sample checklists, schedules, budgeting, and downloadable forms and templates for practical use. The fourth edition has been fully revised and updated to include a new chapter on how to break into the industry, expanded and updated sections on distribution, including theatrical and streaming platforms, set safety, color grading, and legal matters, as well as updated insights from a diverse range of industry professionals. This is the ideal text for undergraduate students studying entry-level film and video production, producing, and cinematography, along with aspiring and working professionals in film and digital production. The updated companion website includes video tutorials, a personnel hierarchy, a guide to mobile apps useful during production, PowerPoints for instructor use, and a complete set of sample production forms and templates for download, including schedules, budgeting, releases, and production checklists.
