Profile Plus 2002 Cd General Version:

Personal Health Patricia A. Floyd, Sandra E. Mimms, Caroline Yelding, 2003 PERSONAL HEALTH PERSPECTIVES AND LIFESTYLES emphasizes the individual's personal responsibility for wellness by presenting general core and current health information to guide decision making. The focus of the text is to present health topics including cultural, racial, ethnic, and gender diversity, identify risk factors, and give students useful and sensible suggestions to reduce their risk for preventable diseases and conditions in order to achieve optimal levels of wellness for themselves, friends, and family. Filled with practical advice, stimulating discussion questions, and self-assessment exercises, this text takes an applied approach and empowers students to take control of their own health. Concentrated emphasis on health issues as they relate to various cultural differences makes this text one of the most up-to-date resources for health-related culture, gender, ethnic, and age issues.

The Software Encyclopedia, 1997 Profiles of American Colleges with CD-ROM Barron's Educational Series, 2002-07-12 America's definitive guide to all accredited four-year colleges and universities has been updated with the latest information, figures, and fees. More than 1,650 schools are profiled with details on admission requirements, academic programs, tuitions, and other fees; sources of available financial aid; library facilities; computer facilities; descriptions of campus environments; athletic facilities; extracurricular activities; e-mail addresses; fax numbers; web sites; and more. Each school receives Barron's exclusive academic rating system, which advises students on its degree of academic competitiveness from Noncompetitive to Most Competitive. Also included on tinted pages for quick reference is a complete index of college majors listed in chart form and including every major offered by every college. A CD-ROM enclosed with each copy of the book can be used for both Windows and Mac operating systems. It is set up in an interactive format allowing students to ask specific questions about individual schools.

7001 Resumes-Plus Second Edition Ferris E. Merhish, 2010 In this second chronicle about Deborah, she faces an enemy whose sole purpose is to kill every human being in the universe. The location of the enemy's home planets is unknown. This enemy has unlimited ships and no concern about the high losses to their personnel. The initial evaluation is that the enemy may not even be human. They are given the name Grays. A creature like the Grays seems rather harmless compared to what fiction shows you. The Grays went unchallenged only because they looked so weak and fragile. No one saw them as a serious threat. I can only think of the army ants on the march. No one takes an ant seriously, however, an army of ants will devastate an area and kill every living creature. The Grays are the same type of threat to mankind. As the Grays are building up their fleets and personnel, Deborah desperately searches the known universe for additional personnel. In this search, she even goes to primitive nations. The United States strips its military forces to provide as many personnel as possible. Despite this effort, there are still not enough personnel. Deborah's scientists are working around the clock to not only upgrade her weapons but also provide her with new types of weapons. Ramah and the United States are making a maximum effort to prepare for the upcoming battle with the Grays. In this battle, either the humans or the Grays will
