Programming With Motif:

Motif Programming Manual Dan Heller,Paula M. Ferguson,David Brennan,1994 Describes how to write applications using the Motif toolkit from the Open Software Foundation OSF going into detail on every Motif widget class with useful examples to help programmers develop their own code Tips on programming in general are also included The authors assume competence with C and familiarity with fundamental X Window System concepts Chapters are marked by uncut tabs for easy location The manual is updated for Motif 1 2 but still usable for Motif 1 1 Annotation copyright by Book News Inc Portland OR **Volume 6A** David Brennan,Dan Heller,Paula Ferguson,1993 The Motif Programming Manual is a source for complete accurate and insightful guidance on Motif application programming There is no other book that covers the ground as thoroughly or as well as this one The book has been updated to Motif 1 2 but is still usable with Motif 1 1 The Motif Programming Manual describes how to write applications using the Motif toolkit from the Open Software Foundation OSF The book goes into detail on every Motif widget class with useful examples that will help programmers to develop their own code Anyone doing Motif programming who doesn't want to have to figure it out on their own needs this book In addition to information on Motif the book is full of tips about programming in general and about user interface design Contents include An introduction to the Motif programming model how it is based on the X Toolkit Intrinsics and how it differs from them Chapters on each of the Motif widget classes explaining them in depth with useful examples that will help you to improve your own code For example the chapter on menus shows how to develop utility functions that generalize and simplify menu creation All of the code shown in the book is available free of charge over the Internet or via UUCP Coverage of the drag and drop mechanism for transferring data Two extensive examples show how to implement custom drag source and drop site functionality in a Motif application A tutorial on UIL The chapters on UIL describe all of the techniques used to create an interface with this prototyping tool The numerous examples cover the basics and explore ways to use UIL to facilitate rapid prototyping The book assumes competence with the C programming language as well as familiarity with fundamental X Window System concepts The Motif Programming Manual is not only the most comprehensive guide to writing applications with Motif it is an integral part of the most widely used series of books on X as a whole It complements and builds upon the earlier books in the X Window System Series from O Reilly Associates as well as on OSF's own Motif Style Guide Best when paired with Volume 6B Motif Reference Manual Motif Programming Marshall Brain,1992 **Motif (Computer File)** Thomas Berlage,1991 **Programming with Motif** Keith D. Gregory,1992-01-01 Basic OSF/Motif Programming and Applications ,1992 When users refer to Motif they are usually talking about mwm the window manager However when programmers mention Motif they are usually discussing the programming toolkit This toolkit is used to develop new or modify existing applications In this presentation the term Motif will refer to the toolkit Motif comes with a number of features that help users effectively use the applications built with it The term look and feel may be overused nonetheless a consistent

and well designed look and feel assists the user in Teaming and using new applications The term point and click generally refers to using a mouse to select program commands While Motif supports point and click the toolkit also supports using the keyboard as a substitute for many operations This gives a good typist a distinct advantage when using a familiar application We will give an overview of the toolkit touching on the user interface features and general programming considerations Since the source code for many useful Motif programs is readily available we will explain how to get these sources and touch on derived benefits We will also point to other sources of on line help and documentation Finally we will present some practical experiences developing applications
