REAGAN

THE POLITICAL CHAMELEON
EDMUND G. (PAT) BROWN & BILL BROWN

THE POLITICAL CHAMELEON

Reagan The Political Chameleon

Robert M. Collins

Reagan The Political Chameleon:

Reagan, the Political Chameleon Edmund Gerald Brown, Bill Brown, 1976 **More: The Politics of Economic Growth in Postwar America** Robert M. Collins, 2000-02-21 James Carville famously reminded Bill Clinton throughout 1992 that it's the economy, stupid! Yet for the last forty years historians of modern America have ignored the economy to focus on cultural, social, and political themes from the birth of modern feminism to the fall of the Berlin Wall. Now a scholar has stepped forward to place the economy back in its rightful place at the center of his historical narrative. In *More*, Robert M. Collins reexamines the history of the United States from Franklin Delano Roosevelt to Bill Clinton, focusing on the federal government's determined pursuit of economic growth. After tracing the emergence of growth as a priority during FDR's presidency, Collins explores the record of successive administrations, highlighting both their success in fostering growth and its partisan uses. Collins reveals that the obsession with growth appears not only as a matter of policy but as an expression of Cold War ideology: both a means to pay for the arms build-up and proof of the superiority of the United States market economy. But under Johnson, this enthusiasm sparked a crisis: spending on Vietnam unleashed runaway inflation while the nation struggled with the moral consequences of its prosperity, reflected in books such as John Kenneth Galbraith's *The Affluent Society* and Rachel Carson's *Silent Spring*. *More* continues up to the end of the 1990s, as Collins explains the real impact of Reagan's policies and astutely assesses Clinton's disciplined growthmanship, which combined deficit reduction and a relaxed but watchful monetary policy by the Federal Reserve. Writing with eloquence and analytical clarity, Robert M. Collins offers a startlingly new framework for understanding the history of postwar America.

In the Shadow of FDR William Edward Leuchtenburg, 2001 A ghost has inhabited the Oval Office since 1945: the ghost of Franklin Delano Roosevelt. FDR's formidable presence has cast a large shadow on the occupants of that office in the years since his death, and an appreciation of his continuing influence remains essential to understanding the contemporary presidency. This new edition of *In the Shadow of FDR* has been updated to examine Bill Clinton's presidency, including possible parallels between Hillary Clinton and Eleanor Roosevelt. Concluding with an analysis of the 2000 presidential campaign, William E. Leuchtenburg assesses the influence FDR's legacy is likely to continue to have in the new century.

The Right Moment Matthew Dallek, 2004 Ronald Reagan's first great victory in the 1966 California governor's race is one of the pivotal stories of American political history: a victory that seemed to come from nowhere and has long since confounded his critics. Just four years earlier, Governor Edmund Pat Brown was celebrated as the Giant Killer for his 1962 victory over Richard Nixon, and his liberal agenda reigned supreme. Yet in 1966, political neophyte Reagan trounced Brown by almost one million votes, marking not only the coming of age of Reagan's new conservatism but also the first serious blow to modern liberalism. Drawing on scores of oral histories, thousands of archival documents, and personal interviews with participants, Dallek offers a gripping new portrait of the 1960s that is far more complicated than our collective memory of that decade.

Selling Ronald Reagan Gerard

DeGroot,2015-09-23 Before 1966 the idea of Reagan in politics provoked widespread scorn To most people he seemed a has been actor a right wing extremist and a dunce Journalists therefore ridiculed his aspirations to be governor of California No one however doubted his incredible ability to communicate with a crowd In order to succeed in his campaign Reagan had to be packaged as an outsider an antidote to politics as usual A highly sophisticated team of marketers and ad men turned the scary right winger into a harmless moderate who could attract supporters from across the political spectrum Researchers meanwhile provided the coaching that allowed Reagan to seem well informed all of which led to Reagan winning the California governorship by a landslide Gerard DeGroot here explores how in the decade of consumerism Reagan was marketed as a product While there is no doubting his natural abilities as a campaigner Reagan won in 1966 because his team of advisers understood how to sell their candidate and he wisely allowed himself to be sold Selling Ronald Reagan tells the story of Reagan s first election when the nature of campaigning was forever altered and a titan of modern American history emerged [Exit with Honor](#) William E Pemberton,2015-03-04 Few presidents have sparked as much interest in recent years as Ronald Reagan already the subject of a large number of biographies and specialized subjects This biography based on recent research into the Reagan archives and synthesis of the large memoir literature explores the shaping of his values and beliefs during his childhood in the American heartland his leadership of the American conservative movement and his successful political career culminating in the first two term presidency since Dwight Eisenhower Pemberton finds Reagan s personal career and ability to understand and communicate with the American people admirable but finds many of the long term effects of his presidency harmful **Institutional Politics and the Rhetoric of Reorganization** Claire Jane Abrams,1984 *Planet Neptune and the Modern Us Presidents: Franklin Roosevelt to Barack Obama* Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After

all it seemed to be almost a prerequisite for being elected to the modern Oval Office

Reagan's Victory Andrew Busch, 2005 Many have pointed to the Iran hostage crisis others to galloping inflation In reality as Andrew Busch makes clear Ronald Reagan's defeat of President Jimmy Carter in 1980 was attributable to more than any one issue no matter how galvanizing It marked the growing ascendancy of conservative attitudes that had been brewing for two decades and marked the clear end of the era of New Deal liberalism Busch offers the first comprehensive study of this contest going beyond journalistic accounts to show why it remains one of the truly landmark elections of the past century Through a compelling story full of colorful characters unexpected plot twists and dramatic finales he reveals how it both reflected the politics of its time and foreshadowed our nation's political future Beginning with Carter's crisis of confidence speech on July 15 1979 Busch introduces the field of candidates follows their campaigns through the primaries and general election identifies the key turning points and winning strategies and assesses the results including the GOP's first Senate majority in twenty six years He shows how the Democrats were weakened by the demise of the New Deal coalition and a decline in public confidence while Republicans were bolstered by the growth of the conservative movement and by all that had gone wrong during the Carter presidency He also examines the creation of a Sunbelt coalition the growing influence of religious conservatives and the independent candidacy of John Anderson which held Reagan's majority to 51 percent and foreshadowed Ross Perot's 1992 run Reagan's victory marked a major turning point in American presidential history realigned the demographics of party affiliation throughout the nation especially in the nation's Sunbelt and gave conservatives their first real victory in their fight against Big Government Busch's book recaptures the people and events of that historic campaign and greatly enlarges our understanding of American politics from the 1960s to the present
