Reflection Of Evil:

A Defence of Idealism May Sinclair, 1917 *Kierkegaard's Journals and Notebooks, Volume 5* Søren Kierkegaard, 2012-01-29

For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics especially literary theory. Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers, but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works to be sure, but we can also see whole galaxies of concepts, new insights and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's *Journals and Notebooks* enables us to see the thinker in dialogue with his times and with himself. Volume 5 of this 11 volume series includes five of Kierkegaard's important NB journals: Journals NB6 through NB10, covering the months from summer 1848 through early May 1849. This was a turbulent period both in the history of Denmark, which was experiencing the immediate aftermath of revolution and the fall of absolutism, a continuing war with the German states and the replacement of the State Church with the Danish People's Church, and for Kierkegaard personally. The journals in the present volume include Kierkegaard's reactions to the political upheaval, a retrospective account of his audiences with King Christian VIII, deliberations about publishing an autobiographical explanation of his writings, and an increasingly harsh critique of the Danish Church. These journals also reflect Kierkegaard's deep concern over his collision with the satirical journal *Corsair*, an experience that helped radicalize his view of essential Christianity and caused him to ponder the meaning of martyrdom. Kierkegaard wrote his journals in a two-column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages, and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced.

Religion and Public Reason Maureen Junker-Kenny, 2014-04-02

This book compares three approaches to public reason and to the public space accorded to religions: the liberal platform of an overlapping consensus proposed by John Rawls; Jürgen Habermas's discourse ethical reformulation of Kant's universalism and its realization in the public sphere; and the co-founding role which Paul Ricoeur attributes to the particular traditions that have shaped their cultures and the convictions of citizens. The premises of their positions are analysed under four aspects: 1. the normative framework which

determines the specific function of public reason 2 their anthropologies and theories of action 3 the dimensions of social life and its concretization in a democratic political framework 4 the different views of religion that follow from these factors including their understanding of the status of metaphysical and religious truth claims and the role of religion as a practice and conviction in a pluralist society Recent receptions and critiques in English and German are brought into conversation philosophers and theologians discuss the scope of public reason and the task of translation from faith traditions as well as the role they might have in the diversity of world cultures for shaping a shared cosmopolitan horizon Ricoeur's Hermeneutics of Religion Brian Gregor, 2018-11-29 Religion was a constant theme throughout Paul Ricoeur's long career and yet he never wrote a full length treatment of the topic In this important new book Brian Gregor draws on the full scope of Ricoeur's writings to lay out the essential features of his philosophical interpretation of religion from his earliest to his last work Ricoeur's central claim is that religion aims at the regeneration of human capability in his words the rebirth of the capable self This book provides a rich thematic account of Ricoeur's hermeneutics of religion showing how the theme of capability informs his changing interpretations of religion from his early work on French reflexive philosophy and the philosophy of the will to his late work on forgiveness mourning and living up to death Gregor exhibits Ricoeur's original contribution to philosophical reflection on such themes as evil suffering and violence as well as imagination embodiment and spiritual exercise He also presents a critical reconsideration of Ricoeur's separation of philosophy from theology and his philosophical interpretation of Christian theological ideas of revelation divine transcendence and personhood atonement and eschatology Additionally Gregor provides an expansive look at Ricoeur's interlocutors including Marcel Jaspers Kant Hegel Levinas and Girard Theologically inclined readers will be particularly interested in the book's treatment of Karl Barth and the Protestant theology of the Word which was a vital influence on Ricoeur The result is a study of Ricoeur that is both sympathetic and critical provocative and original inviting the reader into a deeper engagement with Ricoeur's philosophical interpretation of religion **Lectures on the Philosophy of Religion** Georg Wilhelm Friedrich Hegel, 1895 Modern Theories of Sin William Edwin Orchard, 1909 **Practical Reflections on Every Verse of the Holy Gospels. the return of ancient Gnosis Although the grounds adduced on behalf of the Gnostic return claim in the nineteenth century are dismissed as questionable O Regan shows that the fundamental intuition is correct Boehme s visionary discourse does represent a return of Gnosticism in the modern period and in this lies its fundamental claim to our contemporary philosophical theological and literary attention *Practical Reflections on Every Verse of the New Testament: The holy Gospels* ,1883 *Practical reflections on every verse of the New Testament.
