Mind Switch To Riches Deon Mongwe,2023-09-10 Mind Switch To Riches 90 days of mind conversion For the conduct and approach to Life and Wealth The connecting thread of life and wealth Understand the power within the inside of the individuals that can shape our life according to our likeness Finding the proper way of self conduct upon life and wealth and super master the nature of your kindness We are all born rich and we creates the unpleasant life by ourselves without awareness that we are truly creating what we don t want Learn all the technic explained in this book to create only what is your desire to have or to be This is the only manual which is friendly to communicate with the reader to process the conditioning of mind to life and wealth Nobody would wish to miss this incredible conditioning manual that is purely coded from the best of the universe codes code 3 6 and 9 the list of the high vibrational energy the frequency of mastery Code 3 defines three level of this manual Level 1 Preparation and conditioning of well being Level 2 The awareness and discovery of self being Level 3 Mind switch to riches Code 6 defines the vibration of energy once level two is completed accordingly At this level the mind beings to bit at a very strong signal of frequency this is where the reader start to notice the different from the old mind to a new mind as anything that pops in the mind it get manifested This is where the reader should pay close attention on every single thought which is firing within the mind Code 9 defines mastery which is the complete split of mind vibrational wave to mastery This is a sealed deal where mastery is determine Do not miss out This is the connecting thread of life and wealth indeed and you get to Understand the power within the inside of the individuals that can shape our life according to our likeness Finding the proper way of self conduct upon life and wealth Super master the nature of your kindness We are all born rich and we create the unpleasant life by ourselves without awareness that we are truly creating what we don t want Grab this Mind Switch To Riches for your love ones as a gift hopeful you will never be forgotten for the magic flowing inside this manual is powerful and pure natural The cost is already discounted to be accessible to everyone don t be late as the price won t last long at this amazing discount I was really shock to see an alcoholic friend become sorbalic after sharing this manual however that s not all the bishop of other Christian church texted me the other day after he accessed this manual and said Mr Mongwe I wish I could relocate and stay right there next to you so I can drink from your tab that I was Before I relocate to Asia There is too

much of shocking messages I received about this manual and I can't wait to hear your shocking story after 90 days I compiled this manual for years out of love to better the world for all My passion to reveal the reality on this planet for the society to realize that life wealth and health is absolutely free but greediness turns things upside down Yes yes Absolutely life is free wealth is free Health is free IF THINKING IS FREE WHAT CAN BE SO HARD TO GET IF ALL THAT IT IS IS THE SOURCE OF THOUGHTS Mind Change Susan Greenfield,2015-02-10 We live in a world unimaginable only decades ago a domain of backlit screens instant information and vibrant experiences that can outcompete dreary reality Our brave new technologies offer incredible opportunities for work and play But at what price Now renowned neuroscientist Susan Greenfield known in the United Kingdom for challenging entrenched conventional views brings together a range of scientific studies news events and cultural criticism to create an incisive snapshot of the global now Disputing the assumption that our technologies are harmless tools Greenfield explores whether incessant exposure to social media sites search engines and videogames is capable of rewiring our brains and whether the minds of people born before and after the advent of the Internet differ Stressing the impact on Digital Natives those who've never known a world without the Internet Greenfield exposes how neuronal networking may be affected by unprecedented bombardments of audiovisual stimuli how gaming can shape a chemical landscape in the brain similar to that in gambling addicts how surfing the Net risks placing a premium on information rather than on deep knowledge and understanding and how excessive use of social networking sites limits the maturation of empathy and identity But Mind Change also delves into the potential benefits of our digital lifestyle Sifting through the cocktail of not only threat but opportunity these technologies afford Greenfield explores how gaming enhances vision and motor control how touch tablets aid students with developmental disabilities and how political clicktivism foments positive change In a world where adults spend ten hours a day online and where tablets are the common means by which children learn and play Mind Change reveals as never before the complex physiological social and cultural ramifications of living in the digital age A book that will be to the Internet what An Inconvenient Truth was to global warming Mind Change is provocative alarming and a call to action to ensure a future in which technology fosters not frustrates deep thinking creativity and true fulfillment Praise for Mind Change Greenfield's application of the mismatch between human and machine to the brain introduces an important variation on this pervasive view of technology She has a rare talent for explaining science in accessible prose The Washington Post Greenfield's focus is on bringing to light the implications of Internet induced mind change as comparably multifaceted as the issue of climate change she argues and just as important Chicago Tribune Mind Change is exceedingly well organized and hits the right balance between academic and provocative Booklist A challenging stimulating perspective from an informed neuroscientist on a complex fast moving hugely consequential field Kirkus Reviews Greenfield is not just an engaging communicator but a thoughtful responsible scientist and the arguments she makes are well supported and persuasive Mail on Sunday Greenfield's admirable goal to prove an empirical basis for
