**Hidden Gems Volume II: Contemporary Black British Plays** Deirdre Osborne, 2012-11-02 Includes the plays *A Bitter Herb*, *Absolution*, *Identity*, *The Far Side*, *Mary Seacole* and *Urban Afro Saxons*. This second and sister volume to *Hidden Gems* showcases a further range of plays by Black British writers whose work reaches beyond themes too often perceived by mainstream theatre commissioning as defining Black people's experiences. The plays, monodrama and libretto represent subject matter from woman-centred history, revolutionary politics, trans-racial adoption and African diasporic familial heritage as contoured by the writers' boundary-crossing profiles as poets, playwrights, performers and directors. The accompanying critical introductions are provided by people committed to recognising the aesthetic and political significance of the work and its necessary inclusion in British theatre and literary history.

**TV in the USA** Vincent LoBrutto, 2018-01-04 This three-volume set is a valuable resource for researching the history of American television. An encyclopedic range of information documents how television forever changed the face of media and continues to be a powerful influence on society. What are the reasons behind enduring popularity of television genres such as police crime dramas, soap operas, sitcoms and reality TV? What impact has television had on the culture and morality of American life? Does television largely emulate and reflect real life and society or vice versa? How does television's influence differ from that of other media such as newspapers and magazines, radio, movies and the Internet? These are just a few of the questions explored in the three-volume encyclopedia *TV in the USA: A History of Icons, Idols and Ideas*. This expansive set covers television from 1950 to the present day, addressing shows of all genres, well-known programs and short-lived series alike broadcast on the traditional and cable networks. All three volumes lead off with a keynote essay regarding the technical and historical features of the decade's covered. Each entry on a specific show investigates the narrative themes and history of the program, provides comprehensive information about when the show started and ended and why, and identifies the star players, directors, producers and other key members of the crew of each television production. The set also features essays that explore how a particular program or type of show has influenced or reflected American society and it includes numerous sidebars packed with interesting data related information and additional insights into the subject matter.
