## **Quest For Valid Economics:**

**Quest for Valid Economics** Howard Byington Holroyd,1982      *The Quest for Rights* Massimo La Torre,Leone Niglia,Mart Susi,2019 This discerning book explores the concept of human and fundamental rights originating from the seminal work by the German legal scholar and constitutional lawyer Robert Alexy Recognising the growing challenges to the idea of the universality of Human Rights expert scholars consider time independent conceptual questions which inevitably lie at the heart of any contemporary human rights discourse What is the justification of balancing and or trading off fundamental rights against other rights and collective goods And are there utilitarian considerations that can limit the normative force of human rights      *Economic Methodology and Freedom to Choose (Routledge Revivals)* Patrick O'Sullivan,2012-07-26 First published in 1987 Professor O Sullivan s work provides an in depth philosophical examination of the foundations of method in Economics and other human sciences The argument is unabashedly dialectical in the great Socratic Platonic tradition and the reissue will be very welcome to all students of methodology in particular those students of economic methodology seeking a refreshing alternative to yet more mathematical game playing In an age dominated and perhaps to an extent perplexed by an ultimately non committal postmodernism the book provides a root and branch critique of the epistemological relativism which must lie at the root of the whole post modernist approach and in reasserting the fundamental importance not only for the methods of science but also for European civilisation of the pursuit of truth it takes a stance which is very much against the tide of the times A heterodox perspective is also provided and defended in detail regarding the real nature of economic methodology whereby it is shown that Economics epitomises a teleological mode of explanation which is significantly different from the efficient causal modes of explanation of the natural sciences In fact Economics is the ultimate subjectivist interpretative discipline in the methodological sense of Max Weber and Alfred Schutz a fact which has only been recognised and welcomed in the Austrian school of Economics      *The American economic review* ,1922      [The American Economic Review](#) ,1949 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association      [Resurgence](#) ,2005      **Gandhi's Philosophy and the Quest for Harmony** Anthony Parel,2006-08-10 This book presents an interpretation of Gandhi s political philosophy and how he strove to connect it with the four goals of life purushartha Anthony Parel argues that Gandhi s aim was the restoration of harmony and the removal of any opposition between the spiritual and the temporal the political and the ethical

**Institutes of Economics** Elisha Benjamin Andrews,1888      **Comparative Approaches to Old and New Institutional Economics** Akansel, Ilkben,2019-10-18 As today s world develops and evolves so does its economics New economic approaches have begun to emerge but traditional methods are still being implemented As both systems provide different solutions to society s economic issues thoughtful research and analysis is required regarding the tactics and strategies that both theories utilize *Comparative Approaches to Old and New Institutional Economics* is an essential reference source that
