examines how the British people came to terms with the massive trauma of the First World War Although the literary memory of the war has often been discussed little has been written on the public ceremonies on and around 11 November which dominated the public memory of the war in the inter war years This book aims to remedy the deficiency by showing the pre eminence of Armistice Day both in reflecting what people felt about the war and in shaping their memories of it It shows that this memory was complex rather than simple and that it was continually contested Finally it seeks to examine the impact of the Second World War on the memory of the First and to show how difficult it is to recapture the idealistic assumptions of a world that believed it had experienced the war to end all wars **The Two Worlds**, 1929 **Routledge**

Liturgy, Order and the Law Rupert Bursell,1996

Liturgy is concerned with the worship of God Yet in spite of that some might say because of that it is necessary to have rules It is sometimes mistakenly thought that these rules are archaic and therefore irrevelant in fact the rules and their interpretation have changed considerably in recent years so much so that there is now widespread concern among the clergy and church administrators about the degree to which Liturgical Law is being correctly understood and applied This book has a straight forward aim which is to describe and analyse a wide range of Ecclesiastical Law topics which are scarcely dealt with in other books on Church Law and Ecclesiastical Law As such it provides not merely a statement of legal principles but also a discussion in depth of the relevant law and its developments The style is precise and easy to read The authorities and foot notes are comprehensive Arguably it presents the most comprehensive coverage of Ecclesiastical Law published in modern times
