Single Europe Single Ireland Uneven Development In Process:

Single Europe, Single Ireland? James Goodman, 2000 The national conflict in Ireland has created and feeds off sharply uneven development between the island's north and south This is reflected in a history of diverging socio economic interests conflicting ideological positions and divided institutions which date back to the mid nineteenth century Since the 1950s this unevenness has been reversed first through economic convergence and with increasing intensity through ideological and institutional reorientations Integration in the European Union's Single Market has greatly accelerated this process to the extent that the need for stronger north south linkages has almost reached the status of conventional wisdom north and south Single Europe Single Ireland outlines this process of reversing uneven development providing an historical account of the conflict emphasising its north south dimensions This gives an essential backdrop to discussions of socio economic interests party political positions and state policies north and south Across these issue areas the process of EU integration is linked to the wider process of convergence in Ireland This is set against on going divisions and divergences leading to the conclusion in the book that North South linkages require concerted state action and guidance

Separatism and Sovereignty in the New Europe Janet Laible, 2008-11-23 This book investigates why despite European integration separatist nationalism continues to thrive in EU member states Laible demonstrates that the EU sustains the importance of statehood and therefore separatism and creates new forms of political capital that nationalists employ in their struggles for self government

Citizens and borderwork in contemporary Europe Chris Rumford, 2013-10-31 The extent to which ordinary people can construct shift and dismantle borders is seriously neglected in the existing literature The book explores the ability of citizens to participate in the making of borders and the empowerment that can result from this bordering and debordering activity Borderwork is the name given to the ways in which ordinary people can make and unmake borders Borderwork is no longer only the business of nation

states it is also the business of citizens and indeed non citizens This study of borderwork extends the recent interest in forms of bordering which do not necessarily occur at the state s external borders However the changing nature of borders cannot be reduced to a shift from the edges to the interior of a polity To date little research has been conducted on the role of ordinary people in envisioning constructing maintaining shifting and erasing borders creating borders which facilitate mobility for some while creating barriers to mobility for others appropriating the political resources which bordering offers contesting the legitimacy of or undermining the borders imposed by others This book makes an original contribution to the literature and stands to set the agenda for a new dimension of border studies This book was published as a special issue of *Space and Polity*

A New History of Ireland Volume VII J. R. Hill, 2003-12-04 *A New History of Ireland* is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume VII covers a period of major significance in Ireland s history It outlines the division of Ireland and the eventual establishment of the Irish Republic It provides comprehensive coverage of political developments north and south as well as offering chapters on the economy literature in English and Irish the Irish language the visual arts emigration and immigration and the history of women The contributors to this volume all specialists in their field provide the most comprehensive treatment of these developments of any single volume survey of twentieth century Ireland

Irish nationalism and European integration Katy Hayward, 2013-07-19 How has it been possible for Irish political leaders to actively promote two of the largest challenges to Irish nation statehood the concession of sovereignty to the European Union and the retraction of the constitutional claim over Northern Ireland The author of this book argues that such discourses are integrally connected and what is more embody the enduring relevance of nationalism in modern Ireland As the most comprehensive study to date of official discourse in twentieth century Ireland this book traces the ways in which nationalism can be simultaneously redefined and revitalised through European integration The text begins with an overview of the origins and development of Irish official nationalism It then analyses the redefinition of this nationalism in meeting the challenges to Irish nation statehood posed by the conflict in Northern Ireland and membership of the EU New interpretations of the symbolic and practical importance of the island of Ireland have been central to this process Indeed the genius of the Irish was to employ innovative EU inspired concepts in finding agreement with and within Northern Ireland on the one hand whilst on the other legitimising further European integration through the notion that it furthers traditional nationalist ideals such as Irish unity Thus Irish political leaders were remarkably successful in not only accommodating potent nationalist and pro European discourses but in making them appear complementary An over reliance on this discourse however plus a critical failure to adjust it to the conditions it helped to fashion contributed to the failure of the Yes campaigns in the Irish referendums on the EU Treaties of Nice and Lisbon The book concludes with an assessment of the reasons for these results

and argues that the symbiotic relationship between Irish nationalism and European integration can be redeemed for a new era in EU member state relations This book will appeal to any reader with an interest in the changing dynamics of Ireland's relationship with the European Union and with Northern Ireland as well as scholars of discourses on identity territory and governance in Europe

The Europeanisation of Conflict Resolutions Boyka Stefanova,2013-07-19 This book is about the EU's role in conflict resolution and reconciliation in Europe Ever since it was implemented as a political project of the post World War II reality in Western Europe European integration has been credited with performing conflict resolution functions It allegedly transformed the long standing adversarial relationship between France and Germany into a strategic partnership Conflict in Western Europe became obsolete The end of the Cold War further reinforced its role as a regional peace project While these evolutionary dynamics are uncontested the deeper meaning of the process its transformative power is still to be elucidated How does European integration restore peace when its equilibrium is broken and conflict or the legacies of enmity persist This book sets out to do exactly that It explores the peace and conflict resolution role of European integration by testing its somewhat vague albeit well established macro political rationale of a peace project in the practical settings of conflicts The analytical lens of that of Europeanization The central argument of the book is that the evolution of the policy mix resources framing influences and political opportunities through which European integration affects conflicts and processes of conflict resolution demonstrates a historical trend through which the EU has become an indispensable factor of conflict resolution It begins with the pooling together of policy making at the European level for the management of particular sectors early integration in the European Coal and Steel Community through the functioning of core EU policies Northern Ireland to the challenges of enlargement Cyprus and the European perspective for the Western Balkans Kosovo The book will be of value to academics and non expert observers alike with an interest in European integration and peace studies

Turf War Timothy J. Lynch,2019-05-23 First published in 2004 this provocative and remarkable book is the first significant study of how the Clinton administration revolutionized US policy toward Northern Ireland in the 1990s Based on interviews with the major actors in the episode Timothy Lynch examines in detail how the internal American turf war fought over Northern Ireland shaped the quality and character of US engagement Turf War will be essential reading for all those seeking to understand American policy toward Northern Ireland the institutional dynamics of US foreign policy after the cold war the perils of locking terrorists into a democratic process and US interventions more broadly

The Corporate Takeover of Ireland Kieran Allen,2007 A government by the people and for the people is an ideal of Irish politics But it is fast disappearing as corporations take more control The Corporate Takeover of Ireland examines the effects corporations have on Irish life and shows how democratic decision making has been subverted by money For example Efforts to ban advertising to children and to restrict promotion of alcohol have been prevented by large global corporations Irish universities are increasingly run on the model of a corporation and their research work is being put at the service of major pharmaceutical

firms A new medical apartheid is being created in health as huge US health corporations stand ready to move into the private healthcare market Waste collection is no longer organized as a public service but is being turned into big business State enterprises such as Aer Lingus have been handed over to private investors The Corporate Takeover of Ireland is based on interviews with key participants and is supplemented with documentary information New material challenges arguments for privatization de regulation in Ireland suggests that public resources are being squandered on corporate welfare and questions the notion that the consumer has gained from the changes The book written in a highly accessible style calls for a new movement of resistance that will put people before profit and bring about more genuine democracy *Who's who in European Integration Studies* ,2000 *Dis/agreeing Ireland* James Anderson,James Goodman,1998-10-20 Offers stimulating insights into the contexts problems and possibilities of achieving a settlement of the national conflict in Ireland □□□□ ,2010-03 **Administration** ,2001 **Irish Foreign Policy, 1919-66** Michael Kennedy,Michael J. Kennedy,Joseph Morrison Skelly,2000 Roughly organized along chronological lines these 16 essays explore a variety of episodes in the development of Irish foreign policy from independence in the 1920s to the mid 1960s Among the topics explored are British intelligence and Anglo Irish relations in the 1930s Ireland s reaction to the [A Farewell to Arms?](#) Michael Cox,Adrian Guelke,Fiona Stephen,2006 Neither naively optimistic nor hopelessly pessimistic this collection of writings by experts on the history of the troubles in Northern Ireland paints a realistic picture of the peace processes that have dotted the province s landscape **Peace Research Abstracts Journal** ,2000 *Irish Economic and Social History* ,1974 **Recycling the State** Katy Hayward,Muiris MacCarthaigh,2007 Explores the processes of continuity and change that have forged the nature of the Irish state This work offers a fresh analysis of modern Ireland The main theme is that change in the Irish state is best understood as part of a continual process of adaptation or recycling **Books Ireland** ,2000 **ECSA Review** ,1997
