The Ante-Nicene Fathers Reverend Alexander Roberts, 2007-05-01 One of the first great events in Christian history was the Council of Nicaea in 325 AD convened to organize Christian sects and beliefs into a unified doctrine The great Christian clergymen who wrote before this famous event are referred to as the Ante Nicenes and the Apostolic Fathers and their writings are collected here in a ten volume set The Ante Nicenes lived so close to the time of Christ that their interpretations of the New Testament are considered more authentic than modern voices But they are also real and flawed men who are more like their fellow Christians than they are like the Apostles making their words echo in the ears of spiritual seekers In Volume III of the 10 volume collected works of the Ante Nicenes first published between 1885 and 1896 readers will find three of Tertullians most famous writings In Apologetic Tertullian addresses the powers that be in Rome demanding that Christians be accepted and tolerated by Roman law In Anti Marcion Tertullian attacks and discusses heretics And in Ethical he discusses a variety of moral questions

The Sacred Writings of Tertullian, Volume 2 Tertullian, The Sacred Writings Of provides you with the essential works among the Christian writings The volumes cover the beginning of Christianity until medieval times This is

volume two out of two and containing the following writings Against Hermogenes Against the Valentinians On the Flesh of Christ On the Resurrection of the Flesh Against Praxeas Scorpiace and many more

Anthropology and Authority Poul Houe, Gordon Daniel Marino, Sven Hakon Rossel, 2000 This volume on anthropology and authority in the writings of S ren Kierkegaard 1813 1855 offers its reader nineteen timely discussions of two fundamental categories pertaining to the literary philosophical and theological production of this prominent 19th century Danish thinker whose vast influence upon 20th century intellectual life continues to grow as the new millennium approaches The volume s nineteen contributors from Canada Denmark Great Britain Holland Hungary Italy and the United States inquire into such complex problematics in Kierkegaard s oeuvre as the interrelationship between the human the divine and the spiritual between the secular and the Christian between human and Christian love between state and church institutions and the single individual of faith and between this individual s concern for quality in civic and religious life and the quantitative forces of modern society s masses and crowds Special attention is given to the indisputable authority of God Christ and the apostles as opposed to the debatable authority or non authority of the author Of particular interest is the nexus between Kierkegaard s existential and religious concerns on the one hand and his intricate textual conceptions multifarious poetic strategies and various means of pseudonymous and indirect communication on the other Between the covers of Anthropology and Authority some chapters seek to refine received knowledge of Kierkegaard in such disciplines as theology and moral philosophy Conversely other chapters submit rather postmodern critiques of the author s stylistic and rhetorical devices A summary assessment of the nineteen contributions would fail to recognize this considerable methodological and theoretical diversity Instead the reader s access to the smorgasbord of insights has been facilitated by an introduction in which one of the American editors briefly outline the individual contributions on a general historical and intellectual background Altogether the probing insights of Anthropology and Authority go to the core of S ren Kierkegaard s authorship Individual chapters either update previous responses to the many challenges presented by this work or the chapters face new challenges and or present critical challenges on their own
