

# DISCOURSE ANALYSIS

Discourse analysis is an approach to the study of language that demonstrates how language shapes reality and reveal dominant ways of thinking an acting.

## OVERVIEW

Discourse analysis involves the examination of how the 'ways of speaking about things' normalizes and privileges some frames of thinking about things while marginalizing others.

As a simple example, if movies consistently frame the ideal female as passive, silent, and submissive, then this becomes normalized in the "dominant discourse" of gender.

## EXAMPLE

**Studying Government Policies:** A discourse analysis of policy texts would involve looking at the keywords, metaphors, and phrases used in the text and how they reveal ideological frameworks and viewpoints of the government of the day. These sorts of studies often demonstrate how the language of policy texts normalizes some behaviors and marginalizes others.

Making Sense of Cultural Studies Chris Barker, 2002-03-26 The book is an important read for persons who practice or study within the field Anyone with experience or interest in the topic will come away with a deepened understanding of debates within cultural studies and with an array of new questions and ideas to pursue The book would make a fine text for graduate level classes dealing with culture and media the question debate orientated structure especially could provide the launching pad for a whole range of discussions projects and paper topics The Southern Communication Journal In this sequel to the best selling text Cultural Studies Theory and Practice Chris Barker turns his attention to the significance and future of the field He analyzes the strengths and weaknesses of cultural studies providing students and practitioners with an authoritative diagnosis of the subject and a balanced prognosis and investigates the boundaries of cultural studies elucidating the main underlying themes of study Written with panache and an understanding of classroom needs Making Sense of Cultural Studies is the perfect teaching complement to Chris Barker's earlier textbook It is a rich resource for seminar work and undergraduate and postgraduate thesis topics yet it can also be read as a free standing analysis of the condition of cultural studies today

*Making Sense of Television* Sonia Livingstone, 2013-03-07 Taking the soap opera as a case study this book explores the parasocial interaction people engage in with television programmes It looks at the nature of the active viewer and the role of the text in social psychology It also investigates the existing theoretical models offered by social psychology and other discourses This second edition takes into account recent research work and theoretical developments in fields such as narrative psychology social representation theory and ethnographic work on audiences and look forward to the developing role of audience research It will be an essential study for students and lecturers in social psychology and media studies

Making Sense of Discourse. On Discourse Segmentation and the Linguistic Marking of Coherence Relations Jet Hoek, 2018 When people read or listen to a discourse they will try to make sense of it To fully understand a discourse it is essential not only to know the meaning of each individual clause but also to figure out how all clauses are related to each other If all goes well language users end up with an accurate representation of the discourse An important aspect of building a mental representation of a discourse is inferring coherence relations between discourse segments When inferring coherence relations language users have to deduce whether two or more chunks of text constitute for instance a cause consequence relation a rule and an exception alternatives etc Coherence relations can be explicitly marked by a connective e g because although or a cue phrase e g

except for the fact that by comparison but this need not be the case in many instances coherence relations have to be established without the instructions connectives provide or in the case of underspecified connectives with only limited instructions 00This dissertation investigates both discourse segmentation and the linguistic marking of coherence relations Using a combination of theoretical exploration parallel corpus studies and experimental methods it provides new insights into how and why coherence relations are explicitly signaled and between which parts of a text people infer coherence relations In addition it contributes toward refining discourse segmentation and annotation guidelines both of which are important methodological tools in the research of discourse coherence 0

The Palgrave Handbook of Adult Mental Health Michelle O'Reilly,Jessica Nina Lester,2016-04-08 This Handbook gathers together empirical and theoretical chapters from leading scholars and clinicians to examine the broad issue of adult mental health The contributors draw upon data from a variety of contexts to illustrate the multiple ways in

which language as action can assist us in better understanding the discursive practices that surround adult mental health. Conversation and discourse analysis are useful related approaches for the study of mental health conditions particularly when underpinned by a social constructionist framework. In the field of mental health the use of these two approaches is growing with emergent implications for adults with mental health conditions, their practitioners and or their families.
