## **Opera People:**

**Arts Review** ,1986     Einstein on the Beach: Opera beyond Drama Jelena Novak,John Richardson,2019-12-06 Philip Glass and Robert Wilson s most celebrated collaboration the landmark opera Einstein on the Beach had its premiere at the Avignon Festival in 1976 During its initial European tour Metropolitan Opera premiere and revivals in 1984 and 1992 Einstein provoked opposed reactions from both audiences and critics Today Einstein is well on the way itself to becoming a canonized avant garde work and it is widely acknowledged as a profoundly significant moment in the history of opera or musical theater Einstein created waves that for many years crashed against the shores of traditional thinking concerning the nature and creative potential of audiovisual expression Reaching beyond opera its influence was felt in audiovisual culture in general in contemporary avant garde music performance art avant garde cinema popular film popular music advertising dance theater and many other expressive commercial and cultural spheres Inspired by the 2012 2015 series of performances that re contextualized this unique work as part of the present day nexus of theoretical political and social concerns the editors and contributors of this book take these new performances as a pretext for far reaching interdisciplinary reflection and dialogue Essays range from those that focus on the human scale and agencies involved in productions to the mechanical and post human character of the opera s expressive substance A further valuable dimension is the inclusion of material taken from several recent interviews with creative collaborators Philip Glass Robert Wilson and Lucinda Childs each of these sections comprising knee plays or short intermezzo sections resembling those found in the opera Einstein on the Beach itself The book additionally features a foreword written by the influential musicologist and cultural theorist Susan McClary and an interview with film and theater luminary Peter Greenaway as well as a short chapter of reminiscences written by the singer songwriter Suzanne Vega     *Cinema's Illusions, Opera's Allure* David Schroeder,2016-10-06 The invention of cinema was ingenious so much so that virtually no one quite knew what to do with it In its earliest stages especially with the advent of the feature film it needed models and opera proved to be especially useful in that regard The allure of opera to cinema early in the twentieth century held up through the silent era into sound films through the golden age of movies and beyond This book explores the numerous ways some predictable some unexpected and some bizarre in which this has happened The influence of Richard Wagner on filmmakers has been especially striking and some have even devised visual images that seem to emerge from a kind of non verbal Wagnerian essence a formative musical urge that can underlie a cinematic idea defying explanation and remaining purely sensory Directors like Griffith DeMille Eisenstein Chaplin Bunuel or Hitchcock have intuited this possibility Schroeder provides a fascinating well researched and always entertaining account of the influence of one medium on another and shows that opera can often be found lurking in the background or booming in the foreground of an impressive range of films     **Church Music Review and Official Bulletin of the American Guild of Organists** ,1904  
Musical News ,1910     **The Bystander** ,1905     **The Academy** ,1910     **School Publication** ,1928     **Saunterings**
