Congress. Joint Committee on Atomic Energy,1963 Measuring Space Power Marco Aliberti,Matteo Cappella,Tomas Hrozensky,2019-08-02 This book provides an in depth investigation of the concept of space power and devises a novel conceptual framework for empirically measuring and comparing different typologies of space actors on the basis of clearly defined criteria In turn the book identifies a comprehensive set of conditions required to achieve and maintain the status of space power and explores the main political security and socio economic stakes involved Building on this basis the book conducts a comparative assessment of the major space actors the underlying aim of which is to examine Europe s relative position in the space arena and put into perspective its proclaimed goal to assert itself as a space power with all of the means and resources this would entail Given its scope the book represents a valuable and versatile tool to support European decision making and offers key insights for executives space professionals and scholars alike Air University Review ,1981

The Next Space Race Richard M. Harrison,Peter A. Garretson,2023-03-31 If China s space ambitions continue unchallenged America will be seriously economically and militarily disadvantaged This book provides a comprehensive strategy to secure U S primacy in the space domain From Moon landings to plans for asteroid mining China is beginning to exploit space to achieve its great power ambitions Its strategy could over time severely and adversely impact U S economic and military security The United States needs to structure its approach to space to ensure that it can meet or surpass PRC timelines Authors Richard M Harrison and Peter A Garretson both from the American Foreign Policy Council review the literature on Chinese space ambitions and assess U S space related initiatives across the government military and private sector to understand the maturity of technology available to support space initiatives Their first hand research and findings are supplemented by interviews with industry experts corporate space leaders and government and military officials The Next Space Race describes and seeks to influence the development of American space policy to ensure the U S industrial base is ready to meet or surpass PRC milestones empower and clarify the mission of the newly minted Space Force provide guidance to NASA and other federal agencies and incentivize private sector companies to contribute to ensuring American

The inaugural Space Capstone Publication Spacepower is capstone doctrine for the United States Space Force and represents our Service s first articulation of an independent theory of spacepower This publication answers why spacepower is vital for our Nation how military spacepower is employed who military space forces are and what military space forces value In short this capstone document is the foundation of our professional body of knowledge as we forge an independent military Service committed to space operations Like all doctrine the SCP remains subject to the policies and strategies that govern its employment Military spacepower has deterrent and coercive capacities it provides independent options for National and Joint leadership but achieves its greatest potential when integrated with other forms of military power As we grow spacepower theory and doctrine we must do so in a way that fosters greater integration with the Air Force Army Navy Marine Corps and Coast Guard It is only by achieving true integration and interdependence that we can hope to unlock spacepower s full potential Agility innovation and boldness have always been the touchstone traits of military space forces Today we must harness these traits to pioneer a new Service and a new professional body of knowledge This capstone doctrine is a point of departure toward that goal not a final adjudication Given the nascent state of spacepower theory this publication will inevitably evolve over time as it is applied evaluated and refined Therefore military space forces are encouraged to read critique debate and improve upon the ideas that follow Annual Report on Mineral Industry Operations in Ontario During Calandar Year ... ,1908 **Practical Aviation including construction and operation** J.
