remember vividly the first time that I heard about the fiber amplifier. At that time of course it was the erbium doped fiber amplifier  
the predecessor of the Raman amplifier that is the subject of this book. It was an early morning in a forgotten year in Murray  
Hill New Jersey at one of our Bell Labs monthly research staff meetings. About twenty directors and executive directors of  
research organizations clustered around a long table in the imposing executive conference room. Arno Penzias the vice  
president of research presided at the foot of the table. Everyone who participated in those research staff meetings will long  
remember their culture and atmosphere. Arno would pick an arbitrary starting point somewhere around the table and the  
designated person would head to the front of the table to give a short talk on something new in his or her research area. This  
first speaker would invariably fiddle helplessly with the controls embedded in the podium that controlled the viewgraph  
projector but eventually we would hear machinery grinding in the back room as a large hidden mirror moved into place. We  
would all wait quietly arranging and choosing our own viewgraphs from the piles that lay on the table in front of every  
participant.      Raman Amplifiers for Telecommunications 2 Mohammad N. Islam,2007-06-04 I remember vividly the first time
