Liszt Recomposed Nicolás Puyané, 2024

Explores Liszt's compositional processes and methods of revision as the product of the composer's interactions with a large variety of social cultural personal and political forces Franz Liszt 1811-86 is mostly known for his virtuosic piano works but his compositional achievements in the genre of song have so far been neglected Many of Liszt's Lieder exist in multiple versions sometimes radically altered and many with equal claims to authenticity This has sometimes been viewed as a barrier to performance and a hindrance to scholarly scrutiny Nicol's Puyan now redresses this imbalance and draws attention to this rich and varied corpus of works Liszt's songs contain a myriad of intertextual links not just with the songs of other composers but also with Liszt's own works in other genres and his own revisions By focusing on the multi version songs the book uncovers how these intertextual relationships have evolved over time Introducing the concept of textual fluidity the book explores Liszt's compositional processes and methods of revision interpreting the work as being the product of the composer's interactions with a large variety of social cultural personal and political forces for instance the contemporaneous reception of Liszt's early Lieder or the change in Liszt's performing and compositional environments from his virtuoso to his Weimar years The book then offers close readings of selected songs including the Goethe and Schiller Lieder by applying the concept of textual fluidity Its findings will impact the way in which we see Urtext editions arguing instead for an online fluid text
