

OPEN DECISION FRAMEWORK

PHASE: LAUNCH

Steps you can take to be open

Begin with the end in mind

- Demonstrate alignment with Red Hat's strategy, mission, culture, and values
- Outline the steps you've taken to make this decision openly
- Highlight use of this framework
- Tell associates where to find detailed information
- Show how feedback shaped the decision or project
- Explain how to provide input after launch
- Acknowledge when you're not fully satisfied with the decision or know that others will not be
- Share your timeline or criteria for revisiting the decision
- Stay engaged with those who reject the decision

Default to open

- Reiterate relevant business requirements and constraints
- Share relevant legal, reporting, or confidentiality issues
- Communicate success criteria and publish relevant metrics

Contribute upstream

- Publish your methods, lessons learned, communications, and decision criteria to the archive, so others can review past decisions, learn why a decision was made, and see how leaders have responded to similar issues in the past
- Offer guidance to others on open decision making and choosing collaboration tools

Questions to ask

- How will we monitor mailing lists and other feedback channels after the launch?
- If we have done early releases, will we continue to make incremental improvements based on feedback?
- How willing are we to make revisions based on feedback?
- What's a reasonable window of time for additional input and refinement?
- Did we overlook something important? How do we address it?
- Does the decision need to be revisited?
- Did open decision-making lead to the desired outcomes (slide 5)?
- How can we share our lessons learned and encourage open decision-making at Red Hat?
