Variables Columns

Specify the columns containing the coefficients of the variables. Each column corresponds to a variable in the constraints and objective function. Each row represents an individual constraint, the objective function, or upper or lower bounds. The program interprets the rows according to the corresponding values of the Row Type column.

The coefficients can be either positive or negative. Note that blanks are treated as zeros.

If you to enter upper bounds or lower bounds, enter them on rows: one for the upper bounds and another for the lower bounds.

For example, consider a problem to
