*Selling America* Christina A. Ziegler-McPherson, 2017-02-16 An in depth look at the motivations behind immigration to America from 1607 to 1914 including what attracted people to America who was trying to attract them and why Between 1820 and 1920 more than 33 million Europeans immigrated to the United States seeking the American Dream an image of America as a land of opportunity and upward mobility sold to them by state governments railroads religious and philanthropic groups and other boosters But Christina A Ziegler McPherson shows that the desire to make and keep America a white man s country meant that only Northern Europeans would be recruited as settlers and future citizens while Africans Asians and other non whites would either be grudgingly tolerated as slaves or guest workers or be excluded entirely This book reframes immigration policy as an extension of American labor policy and connects the removal of American Indians from their lands to the settlement of European immigrants across the North American continent Ziegler McPherson contends that western and midwestern states with large American Indian Asian or Mexican populations developed aggressive policies to promote immigration from Europe to help displace those peoples while Southern states sought to reduce their dependency upon Black labor by doing the same Chapters highlight the promotional policies and migration demographics for each region of the United States

The Selling of the American Economy Micheline Maynard, 2009-10-20 Today many Americans regard globalization as a significant threat to our work force and to our very way of life As unemployment soars the American automotive and manufacturing industries crumble countless jobs continue to ship overseas and the retail sector faces the worst slump in decades cries of Buy American have grown louder and louder in our communities in the headlines and in the halls of Washington But at a time when an Italian company has bailed out one of our oldest and most iconic automakers a French German consortium is closing in on a multibillion dollar military contract to build our tanker planes and helicopters companies based everywhere from Switzerland to India to Belgium are stocking our grocery aisles and the assets of some of our most venerable financial institutions have been stripped down and bought up by banks from Hong Kong and London what does Buy American mean any more That said there is a great deal of discomfort about the influence that foreign companies are exerting on our economy Are they making us more competitive in the global marketplace or less Are they creating jobs for Americans or importing their own workforces Are they a threat to our national security or are they bringing us technology that actually makes us safer When they open plants and factories on our shores are they siphoning money from our economy or bolstering it In welcoming their investments are we as some critics contend selling our economy to the highest bidder In THE SELLING OF THE AMERICAN ECONOMY New York Times senior business correspondent Micheline Maynard argues that despite the lingering xenophobia that colors American perception of foreign

owned companies foreign investments are actually an overwhelmingly positive force Not only do they create thousands of jobs and pump billions of dollars into national and local economies she says they reinvigorate and strengthen communities foster innovation and diversity in the marketplace and teach Americans new ways to live and work At a time when our most cherished home grown institutions still reeling from the financial crisis are downsizing shuttering plants and factories and filing for bankruptcy the need for foreign investment has never been greater In this compelling narrative Maynard shows that if we are in fact selling our economy to the highest bidder this may be very good news for America Through moving stories of workers whose lives have been transformed by the arrival of companies like Toyota Airbus and Tata probing interviews with a host of government officials and local leaders who have fought to lure foreign companies to their communities and states and revealing conversations with both American and foreign executives including a rare and hard won visit with Toyota s elusive young new president Maynard paints a fascinating portrait of the paradigm shift that is transforming the American economy and remaking the American dream
