Today the practices are increasing in terms of the number of people engaging in this often baffling behavior. By the use of accessible language, rich descriptions of concepts and realistic case examples, *Cutting and Self Harm* seeks to demystify these behaviors that afflict self-injuring individuals and negatively impact their family members and friends. Author Chris Simpson, PhD, has written and presented on the subject of self-harm since 2001. He begins the book by answering the question, "What is cutting and self-harm and how does it occur," and by explaining important terms and concepts related to the behavior. He then covers current controversies about self-harming behaviors and addresses frequently confusing topics such as the contributing factors to self-injury, psychopharmacological treatment of the behavior, and the use of group therapeutic approaches in treatment facilities. The final section of the book presents additional resources for those impacted by self-injury.

Working With Self Harm and Suicidal Behaviour Louise Doyle, Brian Keogh, Jean Morrissey, 2015-03-04. Suicide and self-harm are world-wide public health issues that can have devastating effects on families, friends, and communities. They are both a priority for anyone working in mental health, social work, emergency departments, and related fields. However, suicidal and self-harming behavior can take place anywhere, anytime. It may be a pupil in a school, an inmate in a prison, or a colleague or family member. For this reason, this book has been written in a clear, accessible, and practical style for anyone who wants to learn more about working with and preventing suicidal and self-harming behavior. It identifies common risk and protective factors, as well as specific warning signs of imminent suicidal behavior. It provides essential communication skills for undertaking a risk assessment, illustrating how each skill can be used in real-life practice. It looks specifically at the issue of self-harm and suicide in prisons, schools, and emergency departments. It lays out clear strategies for identifying and addressing issues of self-care when working with people who are suicidal or who self-harm. It identifies how we can assist those who are bereaved following the death of a loved one by suicide. Packed with learning outcomes, case scenarios, and reflective questions, this book acts as a toolkit for anyone working in this difficult field.
