Selfish Meme:

The Selfish Meme Kate Distin, 2005 This book presents for the first time a fully developed and workable concept of cultural DNA

Virus of the Mind Richard Brodie, 2011-02-15 Virus of the Mind is the first popular book devoted to the science of memetics a controversial new field that transcends psychology biology anthropology and cognitive science Memetics is the science of memes the invisible but very real DNA of human society In Virus of the Mind Richard Brodie carefully builds on the work of scientists Richard Dawkins Douglas Hofstadter Daniel Dennett and others who have become fascinated with memes and their potential impact on our lives But Richard goes beyond science and dives into the meat of the issue is the emergence of this new science going to have an impact on our lives like the emergence of atomic physics did in the Cold War He would say the impact will be at least as great While atomic bombs affect everybody's life viruses of the mind touch lives in a more personal and more pernicious way Mind viruses have already infected governments educational systems and inner cities leading to some of the most pervasive and troublesome problems of society today youth gangs the welfare cycle the deterioration of the public schools and ever growing government bureaucracy Viruses of the mind are not a future worry they are here with us now and are evolving to become better and better at their job of infecting us The recent explosion of mass media and the information superhighway has made the earth a prime breeding ground for viruses of the mind Will there be a mental plague Will only some of us survive with our free will intact Richard Brodie weaves together science ethics and current events as he raises these and other very disturbing questions about memes Culture, Nature, Memes

Thorsten Botz-Bornstein, 2020-12-15 This collection of essays on cognition which involves continental as much as analytical approaches attempts to observe cognitive processes in three areas in culture in nature and in an area that can at least from some point of view be perceived as an in between of culture and nature memes All authors introduce a certain dynamic input in cognitive theory as they negotiate between the empirical and the conceptual or between epistemology and the study of culture In all chapters culture nature and memes turn out to be dynamic in the sense of being non essentialist their significations and modulating functions always being multi dimensional The chapters shed new light on classical themes of cognitive theory as problems of creation generation and emergence animals thoughts and beliefs minds and computing knowledge and its social dimension thoughts and emotions the innate state of lexical concepts and memetics and stylistics

Post Memes Dan Bristow, Alfie Bown, 2019 Art form send up farce ironic disarticulation pastiche propaganda trololololol mode of critique mode of production means of politicisation even of subjectivation memes are the inner currency of the internet's circulatory system Independent of any one set value memes are famously the mode of conveyance for the alt right the irony left and the apoliticos alike and they are impervious to many economic valuations the attempts made in co-opting their discourse in advertising and big business have made little headway and have usually been derailed by retaliative meming POST MEMES SEIZING THE MEMES OF PRODUCTION takes advantage of the meme's subversive adaptability and

ripeness for a focused in depth study Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection this collection of essays paves a way to articulating the semiotic fabric of the early 21st century s most prevalent means of content posting and aims at the very seizing of the memes of production for the imagining and creation of new political horizons With contributions from Scott and McKenzie Wark Patricia Reed Jay Owens Thomas Hobson and Kaajal Modi Dominic Pettman Bogna M Konior and Eric Wilson among others this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online The book aims to become the go to resource for all students and scholars of memes and will be of the utmost interest to anyone interested in the internet s most viral phenomenon

Agents Under Fire Angus J. L. Menuge, 2004 In the first study of its kind *Agents Under Fire* defends a robust notion of agency and intentionality against eliminative and naturalistic alternatives showing the interconnections between the philosophy of mind theology and Intelligent Design Menuge argues that Behe s irreducible complexity is a challenge to reductionism not only in biology but also in psychology and shows the inability of the Darwinian psychology proposed by Dawkins Dennett and Steven Pinker to explain the integration unity direction and reliability of rational thought This fascinating defense against scientific materialism is the only book length study relating Intelligent Design to contemporary issues in the philosophy of mind Drawing on his experience as both a philosopher and a computer scientist Menuge deftly shows the reader that the materialist s attempts to rid science of all commitment to teleology can only result in incoherence and presents instead his own unique argument for the legitimacy of Intelligent Design

Magel, 2017-02-28 Examination Thesis from the year 2016 in the subject English Language and Literature Studies Linguistics grade 2.0 language English abstract At first glance internet memes seem to be the humorous part of our digital culture Indeed they are But they also reveal stereotypical thinking which I will focus on in my analysis This analysis will investigate thoroughly internet memes from a linguistic viewpoint Starting from Richard Dawkins definition via Susan Blackmore s third replicator theory through to Limor Shifman s critical approach about the state of research concerning memes Internet

memes are also examined from a communication oriented view Successful Black Man Successful White Man Ordinary Muslim Man and High Expectation Asian Father serve as a basis for my analysis A combination of Semiotic Analysis and Discourse Analysis is used in order to examine the selected examples Both methods were chosen because Internet memes involve written texts as well as signs or images which contain invisible meaning All results taken together this thesis will show that Internet memes are still interpreted stereotypically in our multicultural present day society Genes Vs.
