What's In The Bootstrapper's Guide To SEO

The guide is broken down into five core sections. We first explain the core concepts of how Google works and the claims they have made about their vision for their search product. Understanding these underlying principles will guide your decision-making when completing the SEO exercises. From there, the Guide dispenses practical, step-by-step processes for building your Page One rankings:

- 1 How SEO Works: A high-level overview so that you can make better decisions.
- 2 A Strategic Approach to SEO: Selecting keywords with the sweet spot qualities: those that will actually bring you new customers AND those that you are able to rank for.
- 3 Web Presence Not Website: Ensuring your website has the tools needed to rank.
- 4 Executing SEO: How to rank and how to institute the right habits within your organization to automatically grow your search traffic forever.
- 5 Measuring Your Progress: How to know what is working, what needs some more attention, and how well you are doing.

There are also four bonus appendixes along with several checklists and worksheets.
