States of Nature Tina Loo,2007-01-01 Since the early days of the fur trade wildlife has been powerfully and inspiringly emblematic of Canada Yet the story of saving Canada s wildlife is largely unknown States of Nature is one of the first books to trace the development of Canadian wildlife conservation from its social political and historical roots While noting the influence of celebrity conservationists such as Jack Miner and Grey Owl Tina Loo emphasizes the impact of ordinary people on the evolution of wildlife management in Canada She also explores the elements leading up to the emergence of the modern environmental movement ranging from the reliance on and practical knowledge of wildlife demonstrated by rural people to the more aloof and scientific approach of state sponsored environmentalism Illustrated with evocative images of the Canadian wilderness of yesteryear and supported by historical case studies States of Nature will appeal to historians policy makers and wildlife managers as well as to general readers fascinated by the natural world and its champions **Harold Innis and the North** William J. Buxton,2013-08-26 Harold Innis is widely understood as the proponent of the Laurentian school of historiography which mapped Canadian development along an East West axis Harold Innis and the North turns the axis North South by examining Innis s intense and abiding interest in the North and providing new perspectives on this seminal figure in Canadian political economy and communication studies This collection reveals that Innis s advocacy of the North was closely bound up with his vision of northern Canada as the site of a second industrial revolution based on mining hydro electric power pulp and paper and enabled by new forms of transportation Long preoccupied with Canada s coming of age as a balanced and integrated industrial nation state Innis grappled with the same issues about the North in the Canadian nation that we are dealing with today Chapters explore the breadth of Innis s northern activities including his early studies of the fur trade his biography of eighteenth century explorer and cartographer Peter Pond his review essays on the North for the Canadian Historical Review his leadership of the Rockefeller sponsored Arctic Survey and his trip to the Soviet Union Harold Innis and the North crafts a new narrative about the nature and scope of Innis s intellectual project and provides a unique appreciation of his multi faceted professional identity Contributors include Sergei Arkhipov North Ossetian State University and NGO Vladikavkaz Institute of Economics Jeffrey Brison Queens George Colpitts Calgary Matthew Evenden UBC Barry Gough Churchill College Cambridge and Kings College London Paul Heyer Wilfrid Laurier Jim Mochoruk North Dakota Liza Piper Alberta Shirley Roburn Concordia Peter van Wyck Concordia Jeff Webb Memorial Lessons From The Arctic Emily Tsui,Thomas S Axworthy,Sara French,2020-08-06 Lessons from the Arctic The Role of Regional Government in International Affairs is a collection of articles written by twenty six leading and emerging scholars from across the circumpolar region Each author assesses and explores the processes of regional governance in the Arctic from an interdisciplinary perspective The topics include Indigenous internationalism paradiplomacy federalism global institution building and more Canada Since 1945 Robert Bothwell,Ian M. Drummond,John English,1989-01-01 Reviews Canada s

Canada and the Idea of North Sherrill E Grace,2002-04-15 Canada and the Idea of North examines the ways in which Canadians have defined themselves as a northern people in their literature art music drama history geography politics and popular culture From the Franklin Mystery to the comic book superheroine Nelvana Glenn Gould s documentaries the paintings of Lawren Harris and Molson beer ads the idea of the north has been central to the Canadian imagination Sherrill Grace argues that Canadians have always used ideas of Canada as North to promote a distinct national identity and national unity In a penultimate chapter The North Writes Back Grace presents newly emerging northern voices and shows how they view the long tradition of representing the North by southern activists artists and scholars With the recent creation of Nunavut increasing concern about northern ecosystems and social challenges and renewed attention to Canada s role as a circumpolar nation Canada and the Idea of North shows that nordicity still plays an urgent and central role in Canada at the start of the twenty first century

[Baseline of Russian Arctic Laws](#) Paul Arthur Berkman,Alexander N. Vylegzhanin,Oran R. Young,2019-03-30 This book is the first comprehensive and authoritative translation into English of national and international laws of Russia that relate to the Arctic from the early 19th century to the present revealing the historical and current context of sovereignty sovereign rights and jurisdiction across nearly half of the north polar region The Russian original version was coordinated by Igor Sergeyeovich Ivanov former Foreign Minister of the Russian Federation and currently the President of the Russian International Affairs Council This unique translation complements all legal geopolitical and governance analyses of the Arctic as a primary source of information without interpretation or bias The Baseline of Russian Arctic Laws is a treasure trove for diplomats scholars and students who are involved with the international environmental economic and societal dynamics of the Arctic balancing national interests and common interests to achieve sustainability of the high north for the benefit of all across generations in our globally interconnected civilization

Making the Arctic City Peter Hemmersam,2021-06-17 Making the Arctic City explores the unwritten history of city building in the Arctic over the last 100 years Spanning northern regions of North America through Greenland Svalbard to Russia this is the first book to provide a truly circumpolar account of historical and contemporary architecture and urbanism in the Arctic and it shows how the Arctic city offers valuable lessons for the post colonial study of architectural and urban planning history elsewhere Examining architects and planners designs for Arctic urban futures it considers the impact of 20th century models of urban design and planning in Arctic cities and reveals how contemporary architectural approaches continue to this day to essentialize extreme climate conditions and disregard the agency of Arctic city dwellers a critical perspective that is vital to the formulation of future design and planning practices in the region

Geopolitics Jason Dittmer,Jo Sharp,2014-06-27 It has been increasingly impossible to think about our changing world without coming across the term geopolitics In the wake of the invasion and occupation of Iraq by the United States United Kingdom and others geopolitics has been offered as an

explanation for the occupation's failure to reinvent the Iraqi state and as a blueprint for future action. But what is geopolitics? Drawing both on academic and political material, this book introduces readers to the concept of geopolitics from the first usage of the term to its more recent reconceptualisations. The concept of geopolitics is introduced through four thematic sections: Imperial Geopolitics, Cold War Geopolitics, Geopolitics after the Cold War, and Reconceptualising Geopolitics. Each section includes key writings from a range of diverse and leading authors such as Said, Agnew, Dalby, O Tuathail, Gregory, Barnett, and Kaplan, and is accompanied by a critical introduction by the editors to guide the reader through the material. This Reader establishes the foundations of geopolitics while also introducing readers to the continuing significance of the concept in the 21st century. This Reader provides an essential resource that exposes students to original writing. The Editors provide a pathway through the material with Section Introductions to assist the readers' understanding of the context of the material and impacts of the writings. The readings included draw from a range of authors writing from a range of locations. The Reader concludes with the latest changes in geopolitical thought, incorporating feminist and other perspectives.
