Not As A Victim:

Victims Still Robert Elias, 1993-04-19 The 1980s saw official crime policy in the United States shifting its focus from crime and criminals to victimization and victims In this thought provoking book Robert Elias evaluates the effectiveness of this shift in policy and argues that victims have been politically manipulated for official objectives From a thorough examination of victim legislation get tough crime policies media crime coverage the victim movement and the wars on crime and drugs Elias concludes that little victim support has actually occurred and that victimization is in fact escalating He argues for a change in the structural sources of crime and proposes a new culture that could lead to substantially less crime

Neither Victim nor Survivor Marilyn Nissim-Sabat, 2009-07-16 In *Neither Victim nor Survivor Thinking toward a New Humanity* Marilyn Nissim Sabat offers a comprehensive critique of the interrelated concepts of victim and survivor as they have been ideologically distorted in Western thought Framed by the phenomenological perspective of Edmund Husserl Nissim Sabat carries out her argument through an intense engagement with current scholarly work on Toni Morrison s *Beloved* Sophocles *Antigone* akrasia psychoanalysis critical race theory feminist philosophy of science and Marxism Nissim Sabat ultimately proposes that a new consciousness enabled by the phenomenological attitude of the way in which ideological distortion of the concepts of victim and survivor helps to perpetuate victimization will empower us to find ways to end victimization and its anti human consequences The book s interdisciplinary approach will make it appealing to a broad range of students and scholars alike

Framing the Rape Victim Carine M. Mardorossian, 2014-05-13 Winner of the 2016 Nonfiction Category from *The Authors Zone* In recent years members of legal law enforcement media and academic circles have portrayed rape as a special kind of crime distinct from other forms of violence In *Framing the Rape Victim* Carine M Mardorossian argues that this differential treatment of rape has exacerbated the ghettoizing of sexual violence along gendered lines and has repeatedly led to women s being accused of triggering if not causing rape through immodest behavior compartment passivity or weakness Contesting the notion that rape is the result of deviant behaviors of victims or perpetrators Mardorossian argues that rape saturates our culture and defines masculinity s relation to femininity both of which are structural positions rather than biologically derived ones Using diverse examples throughout Mardorossian draws from Hollywood film and popular culture to contemporary women s fiction and hospitalized birth emphasizing that the position of dominant masculinity can be occupied by men women or institutions while structural femininity is a position that may define and subordinate men minorities and other marginalized groups just as effectively as it does women Highlighting the legacies of the politically correct debates of the 1990s and the terrorist attacks of 9 11 the book illustrates how the framing of the term victim has played a fundamental role in constructing notions of agency that valorize autonomy and support exclusionary especially masculine models of American selfhood The gendering of rape including by

well meaning sometimes feminist voices that claim to have victims best interests at heart ultimately obscures its true role in our culture Both a critical analysis and a call to action Framing the Rape Victim shows that rape is not a special interest issue that pertains just to women but a pervasive one that affects our society as a whole *The Routledge Companion to Philosophy of Law* Andrei Marmor,2012-04-27 The Routledge Companion to the Philosophy of Law provides a comprehensive non technical philosophical treatment of the fundamental questions about the nature of law Its coverage includes law s relation to morality and the moral obligations to obey the law the main philosophical debates about particular legal areas such as criminal responsibility property contracts family law law and justice in the international domain legal paternalism and the rule of law The entirely new content has been written specifically for newcomers to the field making the volume particularly useful for undergraduate and graduate courses in philosophy of law and related areas All 39 chapters written by the world s leading researchers and edited by an internationally distinguished scholar bring a focused philosophical perspective to their subjects The Routledge Companion to the Philosophy of Law promises to be a valuable and much consulted student resource for many years

Abetting Batterers Andrew R. Klein,Jessica L. Klein,2016-07-08 Whatever the number domestic violence victims remain far too many for a preventable crime More and more victims of intimate partner violence are reaching out to police prosecutors and judges only to be sorely disappointed even betrayed While laws and programs have multiplied over the last few decades to address domestic violence the country is getting safer for almost everyone except for women who have or have had abusive male intimate partners Andrew R Klein and Jessica L Klein look at the criminal justice response to domestic violence across America today ranging from police to prosecutors and courtrooms across the nation Abetting Batterers reveals the troubling pattern of inattention and incompetence that compromises the safety of women and encourages their male abusers to continue their abuse and violence Although criminal justice system agencies vary among cities towns and counties within the same state they all too often relegate domestic violence to the backburners of the system dismissing victims and ignoring even the most serious and chronic abusers The variation reveals the real problem in preventing intimate partner violence lies in these agencies commitment and will rather than their ability to do the job The authors unveil what is working in regard to protecting victims of domestic violence and holding their abusers accountable and they suggest strategies for ensuring that what is being done right can be replicated and become the law and practice across the nation The wide variation in how intimate partner violence is handled by similar jurisdictions demonstrates the real problem in preventing it lies in these agencies commitment rather than ability to do the job This book proves to be invaluable in understanding what is and is not being done in the reality of domestic violence in America

Not A Victim, A Survivor Kimberly Cummings, 2015 My life while never easy has been much like a shaky roller coaster ride I've lived through rape torment domestic violence and family dysfunction However I'm not bitter actually I've learned a lot about myself I chose to write this book about my life because I believe my story may help others be survivors and not victims I found out much more about who I am as a person living through everything that life has thrown at me and in the end I found peace

Radical Critiques of the Law Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self-consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide-ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best
