Seeing Through the Veil Suzanne Conklin Akbari, 2015-01-15 During the later Middle Ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision This shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion In *Seeing through the Veil* Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision After a survey on the genre of allegory and an overview of medieval optical theories Akbari delves into more detailed studies of several medieval literary works including the *Roman de la Rose* Dante's *Vita Nuova* *Convivio* and *Commedia* and Chaucer's dream visions and *Canterbury Tales* The final chapter *Division and Darkness* centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon *Seeing through the Veil* will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science

Seeing through Christianity Bill Zuersher, 2014-06-20 The only book you'll ever need to read about Christianity This remarkable book provides a critical overview of Christian beliefs and the evidence for them Where did these beliefs come from Are there good reasons to believe Christianity is true Bill Zuersher clearly explains each of Christianity's major beliefs He then proceeds to demonstrate significant difficulties with each of them The book tackles these beliefs in a logical order beginning with the problems at the root of virtually all religions suffering and death and culminating in their supposed

resolution through Jesus Mr Zuersher also examines the evidence for Christianity namely religious writings and the historical fact of the early Jesus movement He makes the case that this evidence does not support the religion s claims and he provides naturalistic alternative explanations for how its core beliefs arose In these pages we see the coalescence of Jewish and Zoroastrian religious ideas with those of Greek philosophy and mystery cults to form the belief system we recognize as Christianity today The result Mr Zuersher argues is not revealed truth but rather a human patchwork which contains unwarranted assumptions and logical flaws all founded upon questionable evidence Entertaining throughout it is must reading for skeptics apologists and anyone interested the world s largest religion or the culture wars behind today s politics an invaluable resource for students and teachers writers and debaters Seeing through Texts Francis X.
