**Semirings for Soft Constraint Solving and Programming** Stefano Bistarelli,2004-07-16 Constraint satisfaction and constraint programming have shown to be very simple but powerful ideas with applications in various areas Still in the last ten years the simple notion of constraints has shown some deficiencies concerning both theory and practice typically in the way over constrained problems and preferences are treated For this reason the notion of soft constraints has been introduced with semiring based soft constraints and valued constraints being the two main general frameworks This book includes formal definitions and properties of semiring based soft constraints as well as their use within constraint logic programming and concurrent constraint programming Moreover the author shows how to adapt existing notions and techniques such as abstraction and interchangeability to the soft constraint framework and it is demonstrated how soft constraints can be used in some application areas such as security Overall this book is a great starting point for anyone interested in understanding the basics of semiring based soft constraints

, [ECAI 2006](#) Silvia Coradeschi,Anna Perini,Paolo Traverso,2006-08-15 In the summer of 1956 John McCarthy organized the famous Dartmouth Conference which is now commonly viewed as the founding event for the field of Artificial Intelligence During the last 50 years AI has seen a tremendous development and is now a well established scientific discipline all over the world Also in Europe AI is in excellent shape as witnessed by the large number of high quality papers in this publication In comparison with ECAI 2004 there s a strong increase in the relative number of submissions from Distributed AI Agents and Cognitive Modelling Knowledge Representation Reasoning is traditionally strong in Europe and remains the biggest area of ECAI 06 One reason the figures for Case Based Reasoning are rather low is that much of the high quality work in this area has found its way into prestigious applications and is thus represented under the heading of PAIS
